# Mobility and Transportation Sector Group

Our global sector group reflects the realities of converging transportation modalities in a hyperconnected mobility future. You don't operate in silos – neither do we. Grounded by experience in the following industry sectors: Aerospace and Defense, Automotive, and Transport and Logistics. We go beyond monitoring and anticipating emerging trends. We analyze their legal impact to help you confidently adapt to changes that are already here and changes yet to come. Are you ready for the future?

In our thought leadership publications, we address current challenges and explore future trends. Scan the QR code to access our brochures.

## Getting The Deal Through: Automotive 2022

This joint Hogan Lovells-GTDT Q&A-style publication addresses current laws and regulations affecting the automotive industry. Over 90 lawyers from Hogan Lovells and several best-friend law firms contributed to this cross-practice publication covering 19 different countries.

## What moves you – Transport and Logistics

Connections – Rail, road, sea, and air. Our Transport and Logistics industry sector focuses on various modes of transportation, including transportation operations and services by rail, road, and sea, as well as emerging technologies such as commercial drones and mobility services.

## Mobility and Transportation - Hot Topic Q&A Interviews

The Hot Topic Q&A series addresses and discusses issues, upcoming trends and developments that impact mobility and transportation players, and new entrants.

### **Future of Mobility: Autonomous, Connected, Electric, Shared**

This brochure shows how the developments of ACES (Autonomous, Connected, Electric, Shared) create disruption opportunities for the automotive and mobility industry.

### **Hogan Lovells White Paper – The Road to Autonomous Vehicles**

In response to the EU Commission's draft regulatory framework for autonomous vehicles and other legislative efforts made across Europe, our White Paper offers principles and recommendations for regulating the future of autonomous vehicles with a focus on ensuring safety and regulatory responsibility.

### **Germany clears the way for autonomous driving**

This article comments on the draft ordinance passed by the German Federal Council to supplement last year's act on autonomous driving, which establishes the technical and procedural requirements for the operation of SAE/ISO Level 4 autonomous vehicles on public roads.

### **Living Mobility Spotlight Q&A series**

This piece looks at immediate measures, intros ACES 2.0, examines what living mobility has to do with the future of mobility, and focuses on horizon spotting.

### **Driving Ahead – Our global Automotive capabilities**

This brochure gives you an overview of our global Automotive industry sector with more than 400 lawyers worldwide and reflects our capabilities in the different practice areas.
