

Filics

Future in Logistics

Gregor
CEO

Julius
CPO

Robin
COO

Markus
CTO

Filics is the simplest and most efficient solution for automating all ground-based transport processes

Main use cases:

- 1 Truck loading/unloading
- 2 Group / Pulse transports
- 3 Handover to stacker cranes
- 4 Handover to production lines
- 5 Sequencing in confined spaces
- 6 (Short-term) block storage / buffer zones
- 7 Setting up and dismantling of truck loading zones
