

# Unlock with a Tap

Plastic free, protect the earth, and us.

## SMART PROPERTY MANAGEMENT SYSTEM

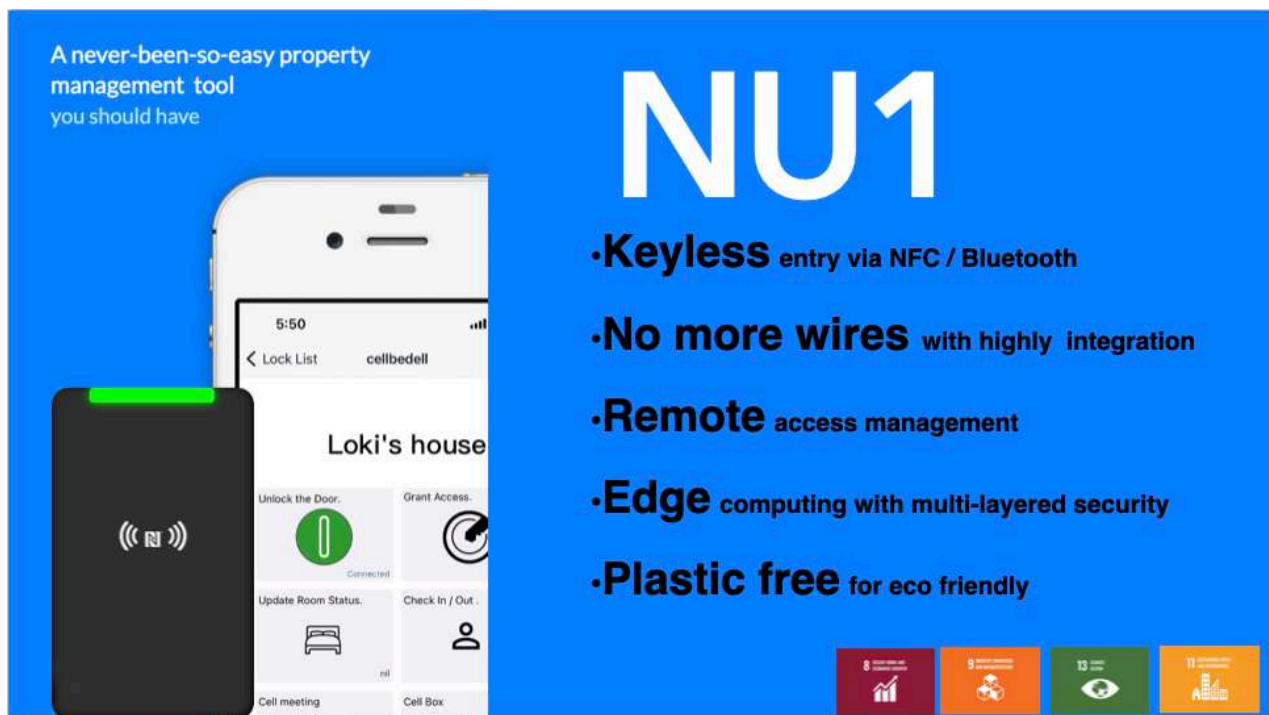

### A simple and flexible mobile key management system

Contactless access control Long can save time and resource as well as everybody's safety. No need to wait in line anymore. However, to deploy smart but expensive and complex facility is another issue for hospitality and property management industry nowadays.

Mobile key to access control is emerging and become more and more popular.

## No more wires

Only power supply to the device and hardware, no more wires and complex installation with setting on mainframe and host PC. All set on the cellbedell APP.

A never-been-so-easy property management tool you should have

**NU1**

- **Keyless** entry via NFC / Bluetooth
- **No more wires** with highly integration
- **Remote** access management
- **Edge** computing with multi-layered security
- **Plastic free** for eco friendly

The image shows a smartphone displaying the 'cellbedell' app interface for 'Loki's house'. The app screen includes a 'Lock List', 'Unlock the Door' button, 'Grant Access' button, 'Update Room Status' button, and 'Check In / Out' button. A black NFC card with a green top edge is shown next to the phone. At the bottom right, there are four icons representing different features: a bar chart, a person, an eye, and a building.

## Flexible hardware options

With NU1 card reader, host can decide their preferred magnetic lock to fit with the gates to doors. Our card reader can work together with our UL grade door lock as well.

## Walking front desk

Cellbedell keyless solution

NFC function makes your own keycard  
with mobile phones

**SUSTAINABLE DEVELOPMENT GOALS**

Tablets become kiosks to increase efficiency and bring down

## Mobile management

We integrated all manage functions into APP for hosts can grant access credentials, check room status and sync up with coworkers. In additions, host can directly produce keycards with their smart phones.

## Smartest protection for your site

**Smart Scan**

We use NFC to make you cellphone as your key

**Watch Access**

Just use your watch without phone aside

**Wallet**

use wallet as the passcard

## Rapid deployment on smart building management system

It only take 20 minutes to deploy NU1 access control system.

We raise up the efficiency up to 70% while bringing down 80% on total installation cost on facility.
