

Wyblo is the Training Management System developed to tackle the everyday challenges and long term goals of organization to **reduce complexity** and **enhance quality**.

Your potential challenges

1. Lack of a unique tool to manage instructure-led and remote learning programs;
2. Trainees have to access multiple and disconnected platforms to complete their course;
3. The content is spread on different platforms for live and online courses;

Our solution

1. All-in-one platform for in-person and remote training;
2. Admins, trainers and trainees have personal access to their accounts;
3. End-to-end course delivery including registration, video platform, certification

Your benefits:

- Reduce and simplify the management of training;
- Enhance the learning experience and outcomes;
- Show your stakeholders you care about continuous improvement as a core pillar to engage your trainees;

Why Wyblo

- We are an innovative startup dedicated to elevate the training industry;
- Accelerated by top global programs such as MindCET (Israel), SuperCharger Ventures (UK-Singapore);
- Young team ready to collaborate with partners;

What's next

The Wyblo team is committed to provide the best training experience, hence we are always looking to bring new innovation to you.
