

ETICA IP

INTEGRATED PLATFORM

(USV + ROV)

**Surface&Subsea services in the
Blue Economy industry with
low environmental impact
using only renewable energy**

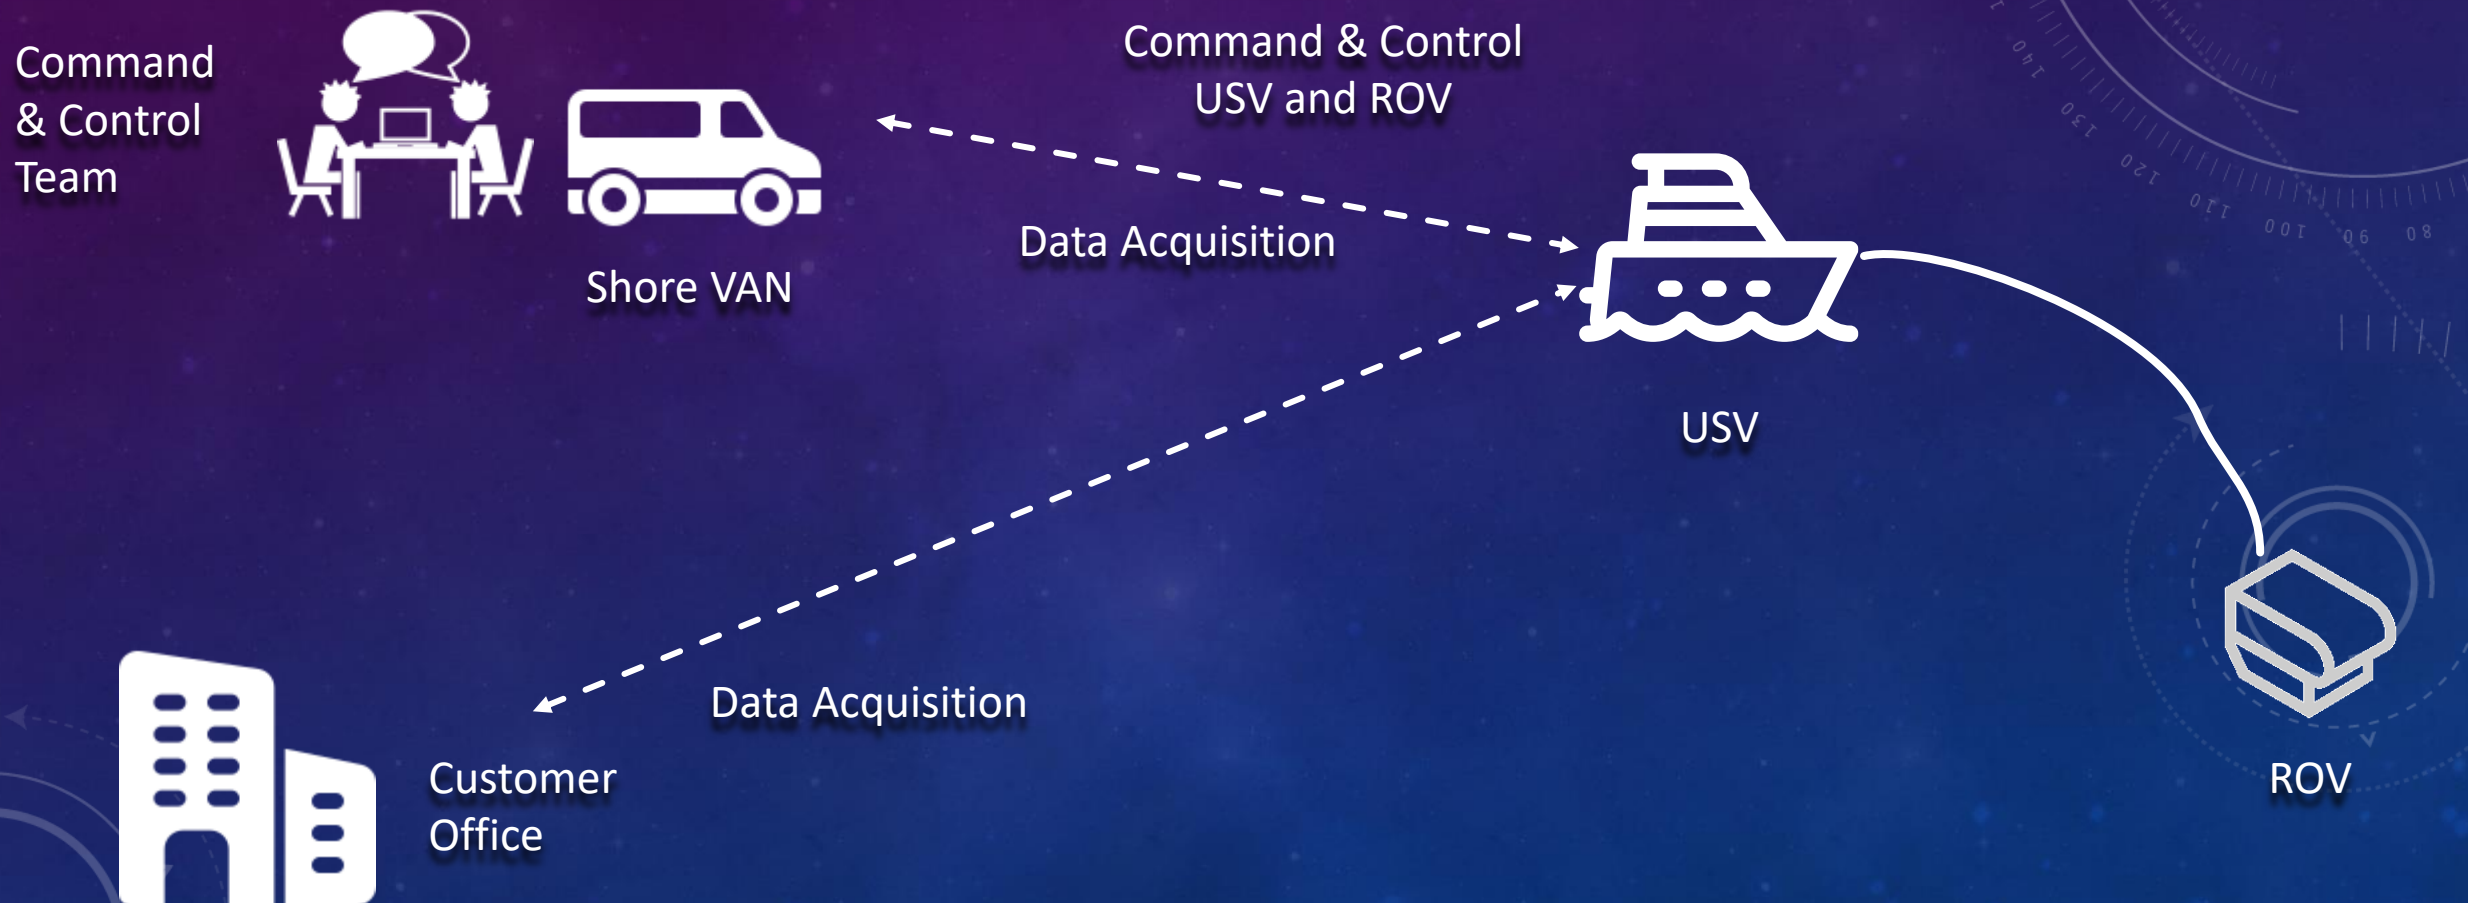

HOW IT WORKS:

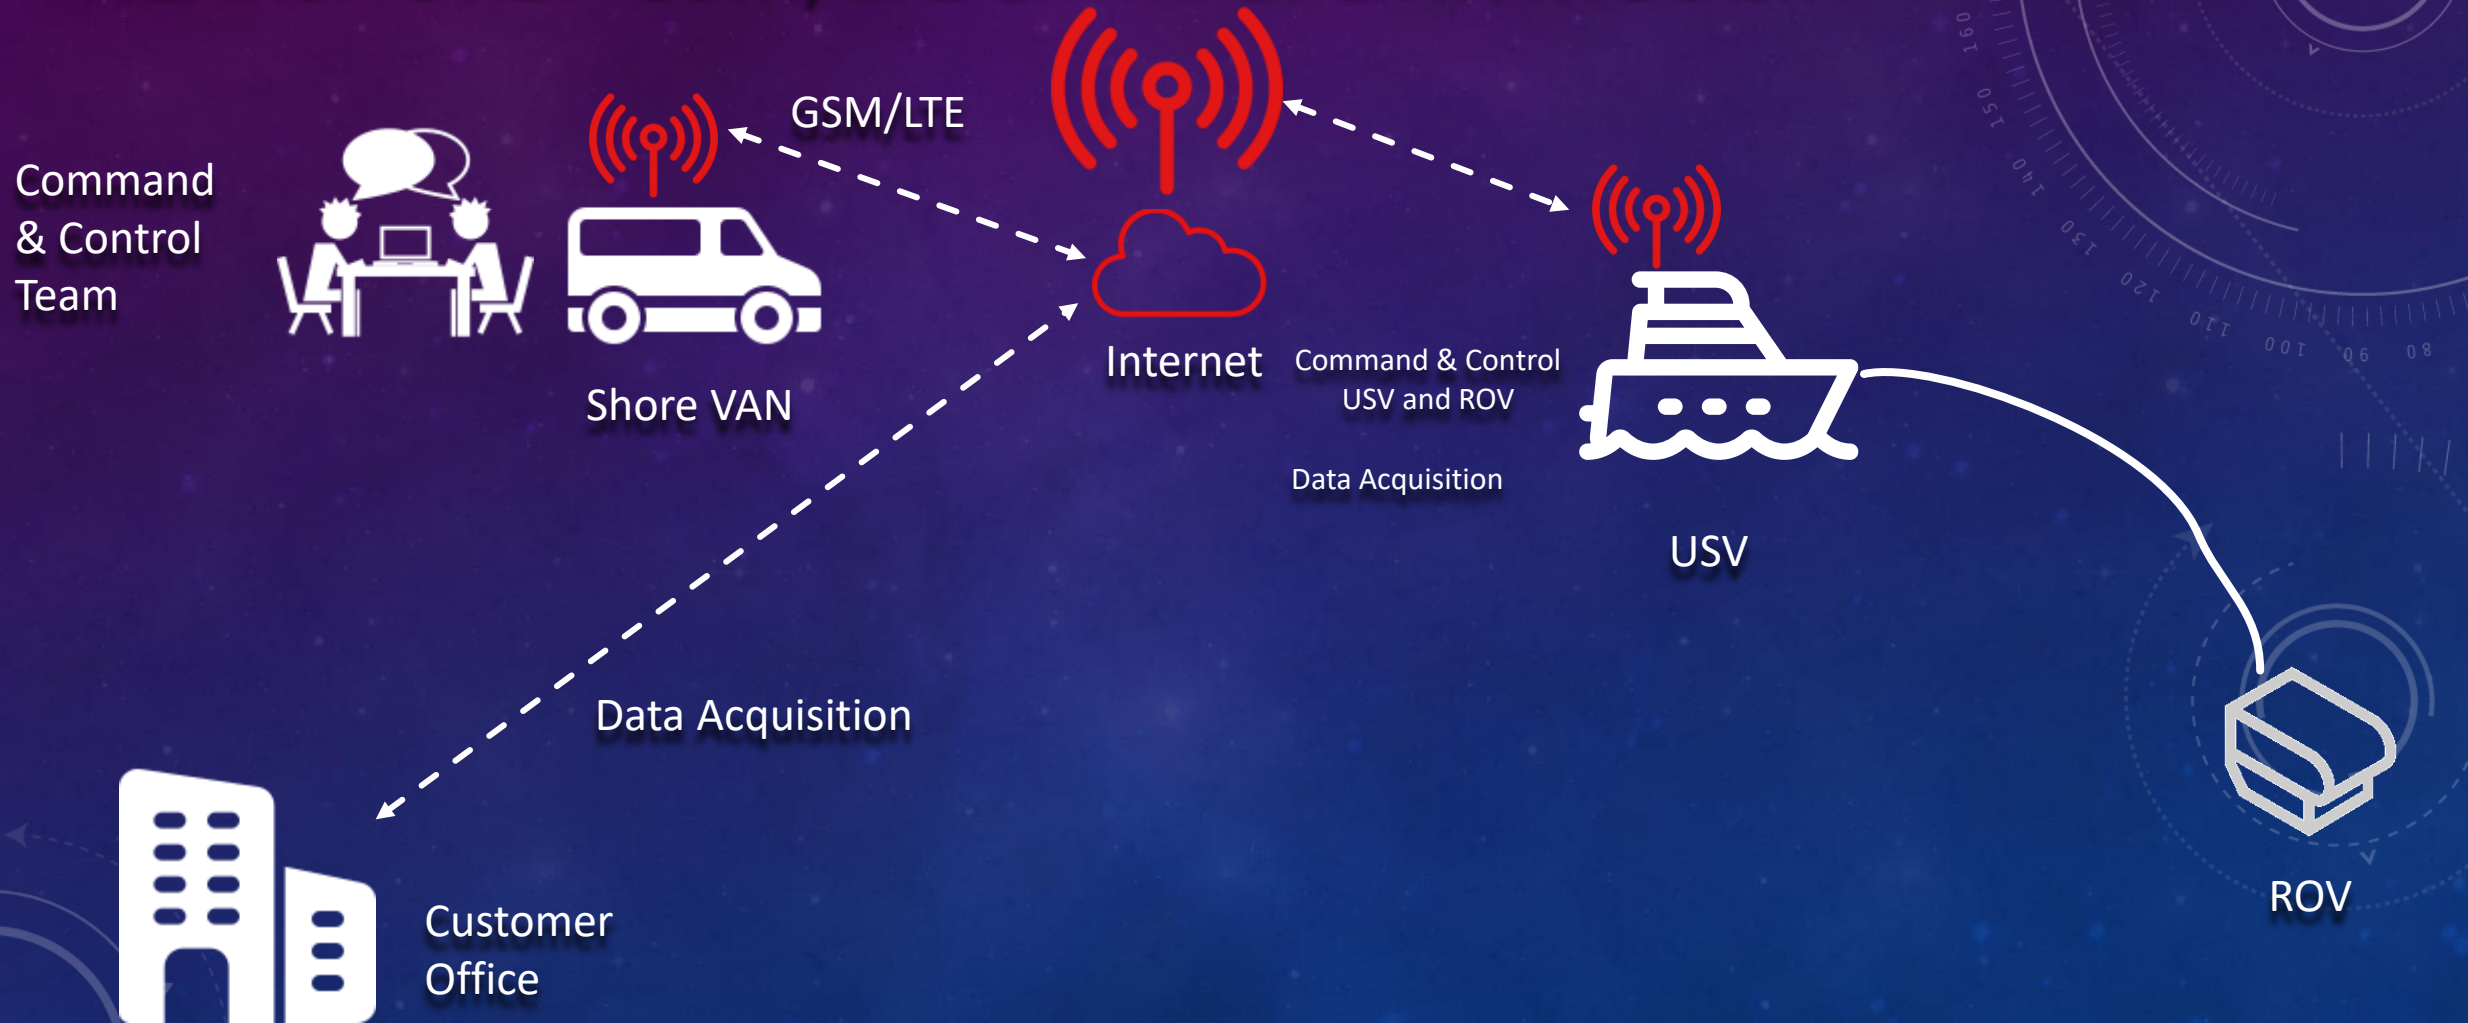

ETICA IP is a breakthrough technology that is able to provide **integrated services** with **low costs** and a very **low environmental impact**.

Communication & control tools for the **Integrated Platform** are able to ensure the activity of the project in **nearshore** or **offshore**.
