Reproduction X Cleanup X Education

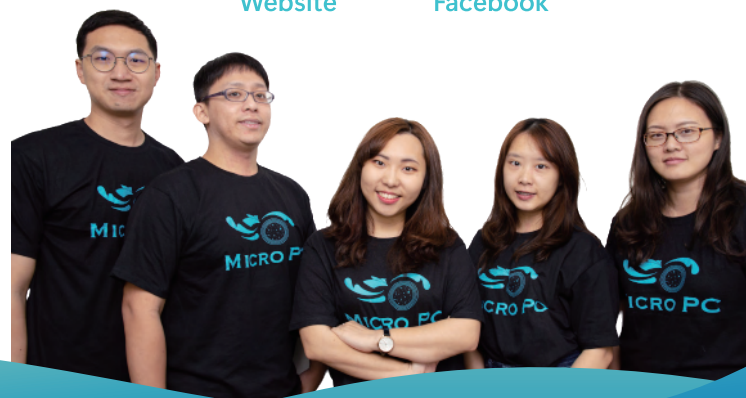

Micro PC is committed to the development of marine waste technology and marine education. We investigate the microplastics in river, reservoir, and harbor by our own microplastic collector, and remove floating marine debris in harbor by unmanned ship. We also provide consulting services such as marine waste recycling. Hope we can use the power of innovation technology to make the environment sustainable and become a social enterprise that speaks out for marine life. Save Ocean Save Children.

服務單位 Customer served

桃園市政府海岸管理工程處

Office of Coast Administration Construction, Taoyuan

SAVE OCEAN SAVE CHILDREN

再生 X 清除 X 教育

點點塑環保科技公司，致力於海廢科技與海洋教育的發展與推廣，研發無人船、微型塑膠收集器，收集河川與港口中的微型塑膠和海漂垃圾，同時也提供海廢再製等顧問服務，期望用青創科技之力協助傳產和環境，成為為海洋生物發聲的社會企業，Save Ocean Save Children

海洋教育

微型塑膠介紹與危害說明
海廢收集科技
海廢垃圾車模型手作
淨灘活動辦理
海廢藝術手作

Marine Education

Introduction to microplastics
Marine debris removal technologies
Marine debris collector model DIY
Beach cleaning activities
Marine waste DIY

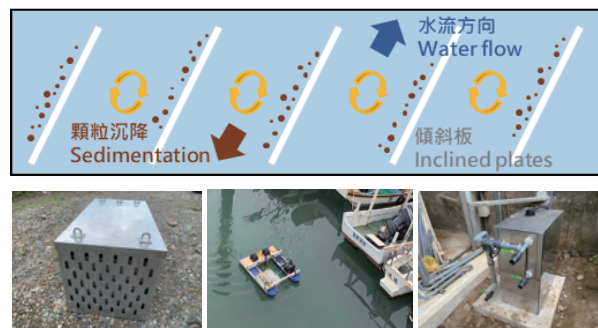

設備

Equipment

微型塑膠收集 Microplastic collector

傾斜板原理結合水流導流設計，無需使用濾網
Combine inclined plates with water diversion design, work without filter screen

可搭載無人船/搭配水質測站收集
Carried by unmanned ship/ Setup in water quality monitoring station

無人船海漂垃圾清除

Floating marine debris removal by unmanned ship

模組化設計、方便載運、快速組裝
Modular design, easy transportation, quick installation

可搭載不同工具和感測器
Good to carry different sensors or tools
