ONE AI-AUTOMATED™ SOLUTION, DOES IT ALL!

Pixellot's set & forget affordable AI-Automated solutions deliver HD, Tactical and panoramic live match feeds with a low-latency stream to support all your video and data needs.

Capture

Installed or portable multi-cam devices capture every moment of the game and deliver HD, Tactical and panoramic live match feeds. The content can be streamed in low latency to support live betting services.

Create

Produce high-definition video feeds and stream games to fans, families, coaches and scouts.

The video content includes an in-game scoreboard, stats, a remote or on-premise commentator, graphics, banners, watermarks and more.

Analyze

Take your video to the next level with professional analysis tools, stats, and game breakdowns for analysts and coaches. As a video exchange platform, Pixellot enables sharing footage while providing advanced stats, shot charts and heatmaps.

Monetize

Digitally transform your organization with an affordable, custom-made OTT, tailored to the content needs of sports organizations. Engage viewers and gain subscribers and advertisers, unlocking new business models and revenue streams including weekend/monthly/annual subscriptions, PPV/on-demand, advertising, sponsorships and live data.
