SMS

API

WHAT ARE YOUR KEY BENEFITS?

Validate the adoption of you app
by 100% of your users

Improve the efficiency of your
teams

Ease the work of your teams

Be the leader thanks to your
digital services

Automate your tests and validate all your offers

WHAT THEY SAY ABOUT KAPPTITEST

« Kapptivate robots enable the automation of a wide range of use cases on mobile applications and websites. Thanks to these robots, we automate all our non-regression tests (TNR). Using kapptitest, we reduce the tests' execution time and improve the tests' quality. Finally, our project time to market is now better. »

Aïcha Benabdellah, Senior Manager at DSSI ORANGE MAROC
