

MESSAGING REDEFINED FOR OPERATIONAL RESILIENCE AND EMERGENCY RESPONSE

Revolutionize communications and control in an increasingly dynamic and connected world: **Empower action, boost safety, and enhance efficiency**

For Smart Building | Smart Campus | Smart Enterprise | Smart City | Smart Nation

Location-Aware Messaging and Orchestration: Why Now?

As we move around, our emails, Teams accounts or phone numbers do not change. Yet our relevance to events constantly does.

There's a growing gap between the huge amounts of data generated by AI, IoT, GIS... and the ability to actually act on it.

Balcony's platform bridges those gaps Turning Insights into Action:

- Enhancing situational awareness and action-taking for both the people in charge AND the people they're in charge off, facilitating the flow of mission critical info faster than ever
- Innovative technology flawlessly merging mobile messaging, GIS, analytics, AI, and AR into an intuitive and simple to operate User Experience
- Modular B2B SaaS platform with open architecture for seamless integration and solution enhancement
- Trusted by Fortune 500 companies, major cities, and top international NGOs.

ONE PLATFORM TO EMPOWER:
