Are you aware about the invisible killer in your baby's room?

Global researches show that a child's growth is severely impacted by quality of indoor air

According to Harvard:

- It impacts cognitive skills
- Increases risk of mental illness

Digital Babysitter

We help you not just with keeping a check on quality of air around your baby but also with providing tech enabled solution like mobile alerts/advisories etc., so that your child's care is ensured, no matter where you are.

Stay one step ahead, not just be a parent, **BE A SMART PARENT!**

Asthma Care
