

Valterio

Our mission

Decarbonize and relocate the production of materials for your development projects thanks to our eco-designed alternative solutions.

Secure your supplies

Stand out from the competition

Achieve your environmental footprint reduction goals

Our 3 pillars

Circular economy

Recycled materials, low energy production, repairable products, recyclable materials

Bio based

Raw materials from secondary biomass (biowaste, by products from the agro food industries)

Locality

French supplies and production

Our recycled raw materials : spent grains, husks, shells

Interior design applications
