NANOPARTICLES : A DRUG DELIVERY REVOLUTION

Infectious diseases – Cancers – Genetic diseases

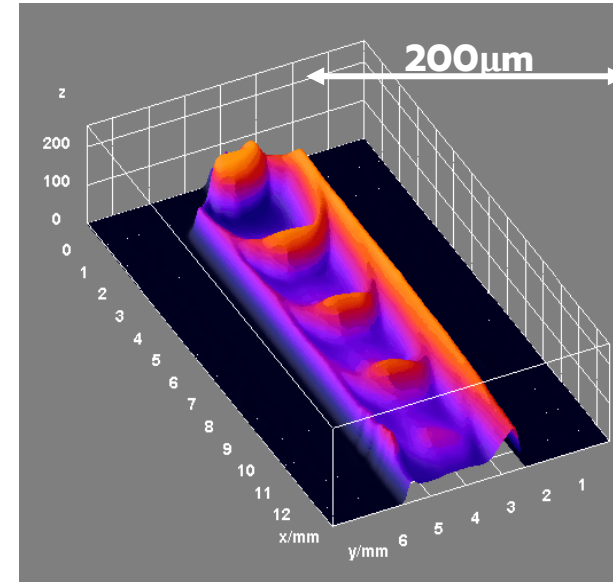

PROBLEM

No instrument today can perform both **screening** of multiple candidates and production **scale-up** for further **nanodrug** tests & **bioproduction**.

SOLUTION: A FULLY SCALABLE & PROPRIETARY PLATFORM

Patent PCT/EP2023/059114 (filed 2022)

RUO platforms

RUO platforms + Pulse

GMP-compliant platforms + Pulse

2024

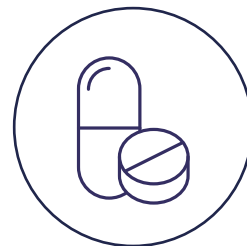

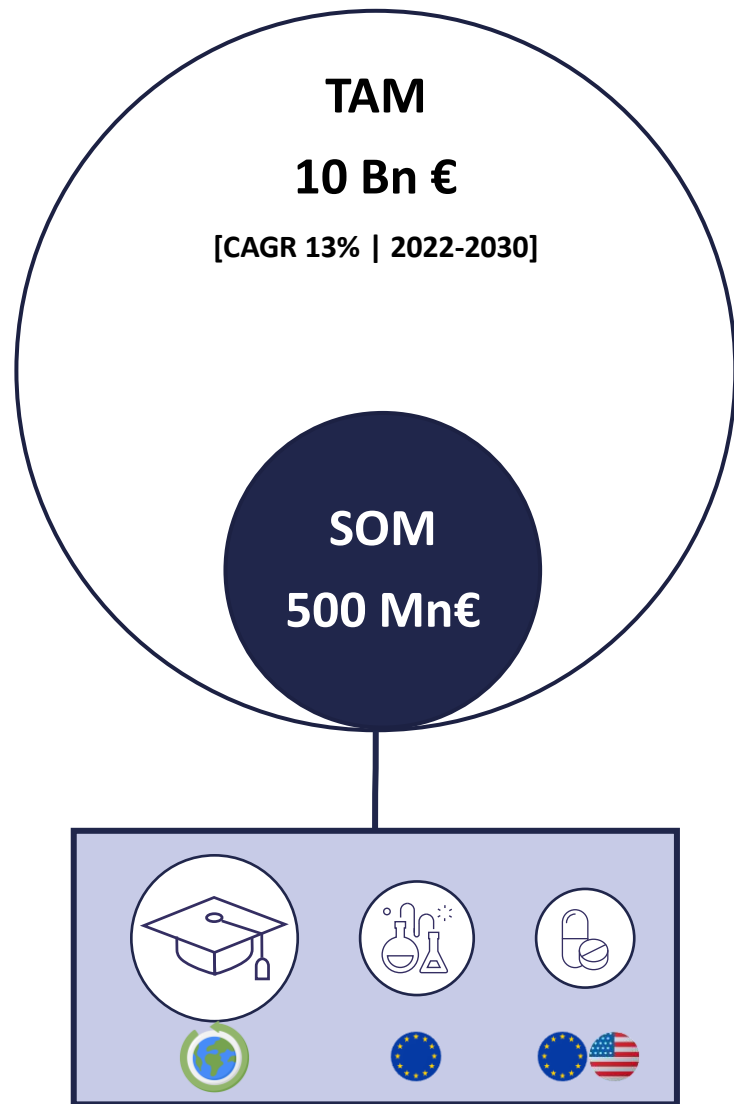

2026

2028

Platforms based on a **patented nanoformulation process** to better **screen** candidates and accelerate the bioproduction **scale-up**

RUO : Research Use Only; GMP : Good Manufacturing Practices

MARKET & CUSTOMER SEGMENTS

50 pharmas

Sanofi is investing 1 Bn € for nanodrugs
Eli & Lilly is investing 0.7 Bn € for nanodrugs

300 CDMOs ww | €220 Bn by 2028
30 CDMOs EU | €1.2 Bn by 2028

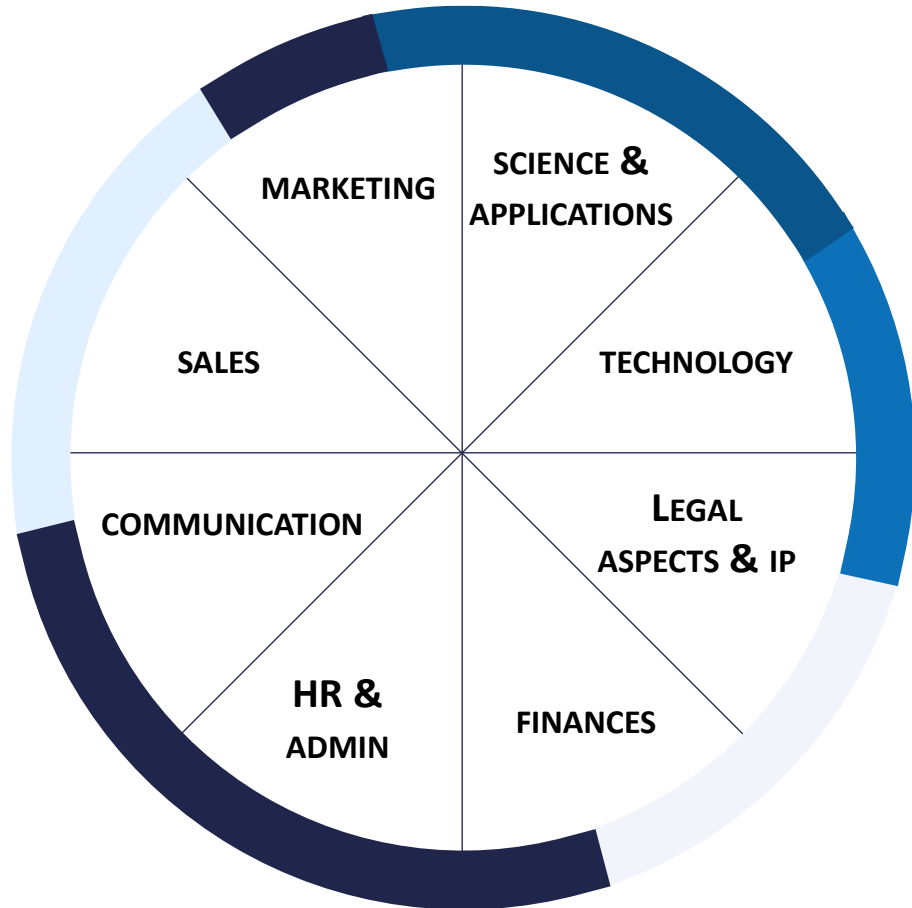

20 000+ laboratories publish on nanodrugs worldwide
