

# Curacel

Curacel is an **insurance infrastructure company** with clients in over **8 countries**.

With funding from Google, Y-Combinator and other investors, we are building the technology infrastructure that enables insurers to connect with digital distribution channels and to administer their claims cost effectively.

# Vision

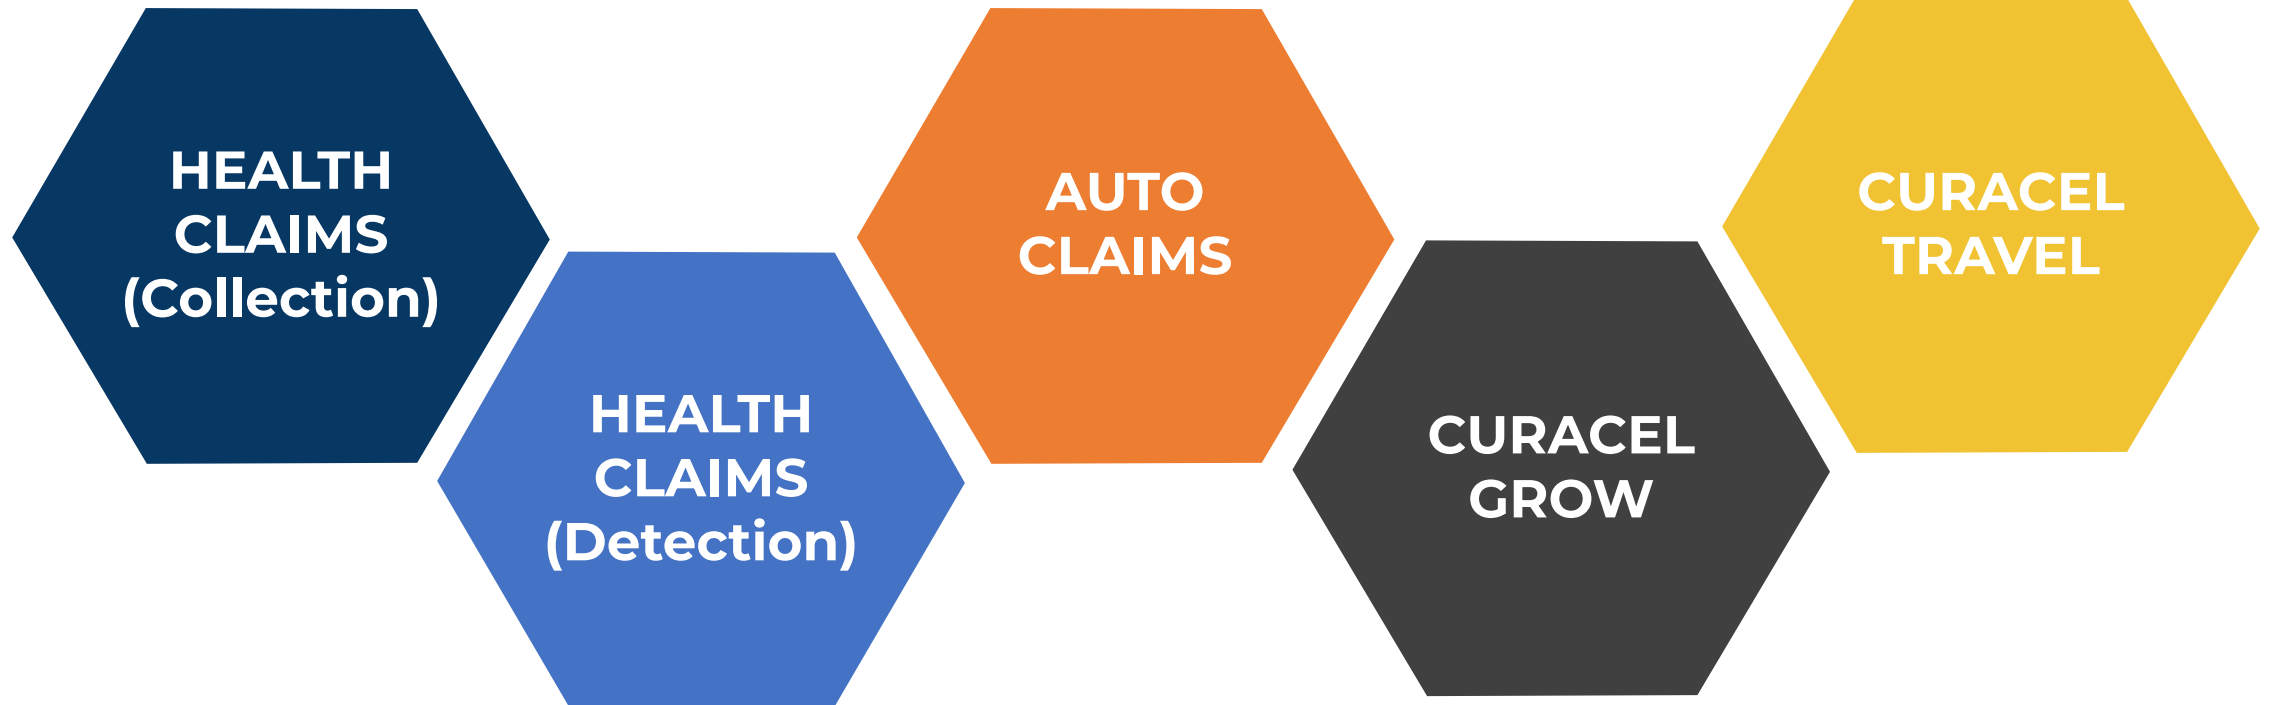

A world with equal economic opportunities and prosperity

# Mission

Use technology to drive up insurance inclusion in emerging markets

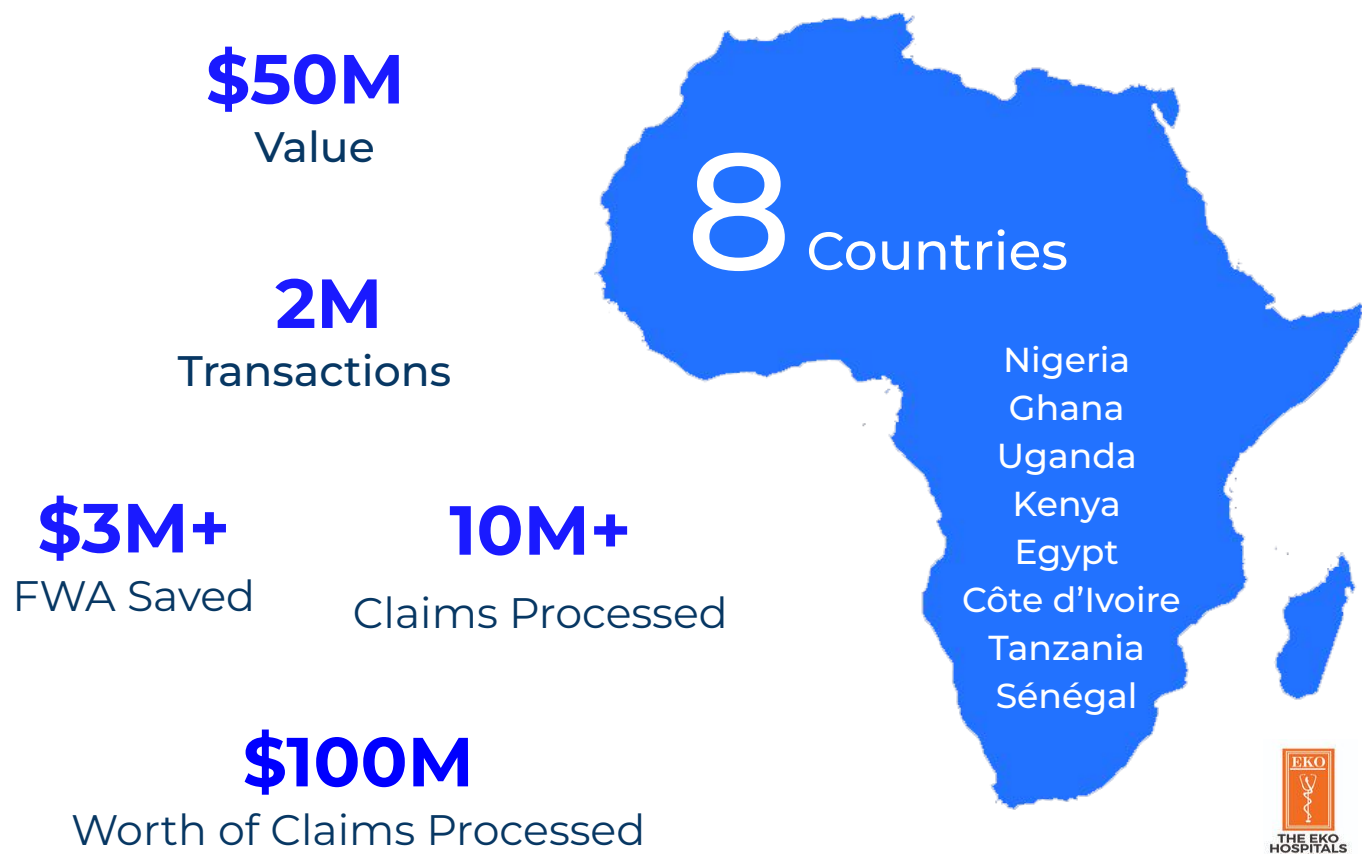

# Our Products

# Trusted by Pan African Insurers, Hospitals & Businesses...

Backed By: Google Y Combinator Tencent 腾讯

# Why choose Curacel?

## Pan African Reach

Our expansive underwriter network and infrastructure across Africa enables you to switch on another market without all the hassle of finding integration and negotiating terms with another insurer/broker

## Easy Claims Processing

With our AI technology, claims can be submitted and processed in real time making it easy for your users to enjoy the benefits of their insurance policies

## Focus User Experience

Our key focus to ensure your customers satisfaction and peace of mind. Our core business is in making your experience with insurance be the very best it can ever be!
