OUR STORY

CORKBRICK story started in April 2012 at a Lisbon's airport coffee shop, on a trip to Casablanca... a conversation between father (serial entrepreneur) and daughter (future architect) about a possible project for a specific area of their house.

"We were discussing solutions for open spaces, specifically searching for ideas to create a dynamic guest room in our attic. We needed something simple, scalable, easy to mount and dismount - and most importantly without the use of tools, glues, or screws!" M.Reynolds

'While starting my Architecture course in Lisbon, I was challenged by my father to create this 'LEGO' for real life. This is when the 3D modulation work started, with numerous shapes and forms that resulted in the final 7 shapes that give us an unimaginable number of possible configurations and uses.' C.Reynolds

It was by 2018 that the first production line of CORKBRICK was created, with a pressing and mould machine.

In 2019 CORKBRICK participated in various events to showcase our product and innovation. We were present at Meta marathon in Dusseldorf; Futurebuild in London; WSA-GlobalCongress in Cascais; Websummit in Lisbon.

By 2020 a new accomplishment was made: the **European patent**. Also this year we have been selected as a finalist for two competitions: Sustainable Fast-Track UK Awards & South Europe Startup Awards.

2020 was also the start of private sales. The first flagship sales were for Cascais Municipality, and for WOW Porto.

By 2021, although COVID stopped the events from happening, CORKBRICK grew its public by delivering the first DEMO packs to Japan, USA and Switzerland.

With 2022 came back all the events, such as SRU Lisboa, Greenfest Cascais, Ficor and Dutch Design Week in Eindhoven. Also this year, CORKBRICK has won the **Reumprobe Material Prize**

CORKBRICK is "a simple, practical, versatile solution that stimulates creativity and collaboration among people, in family and work environments."

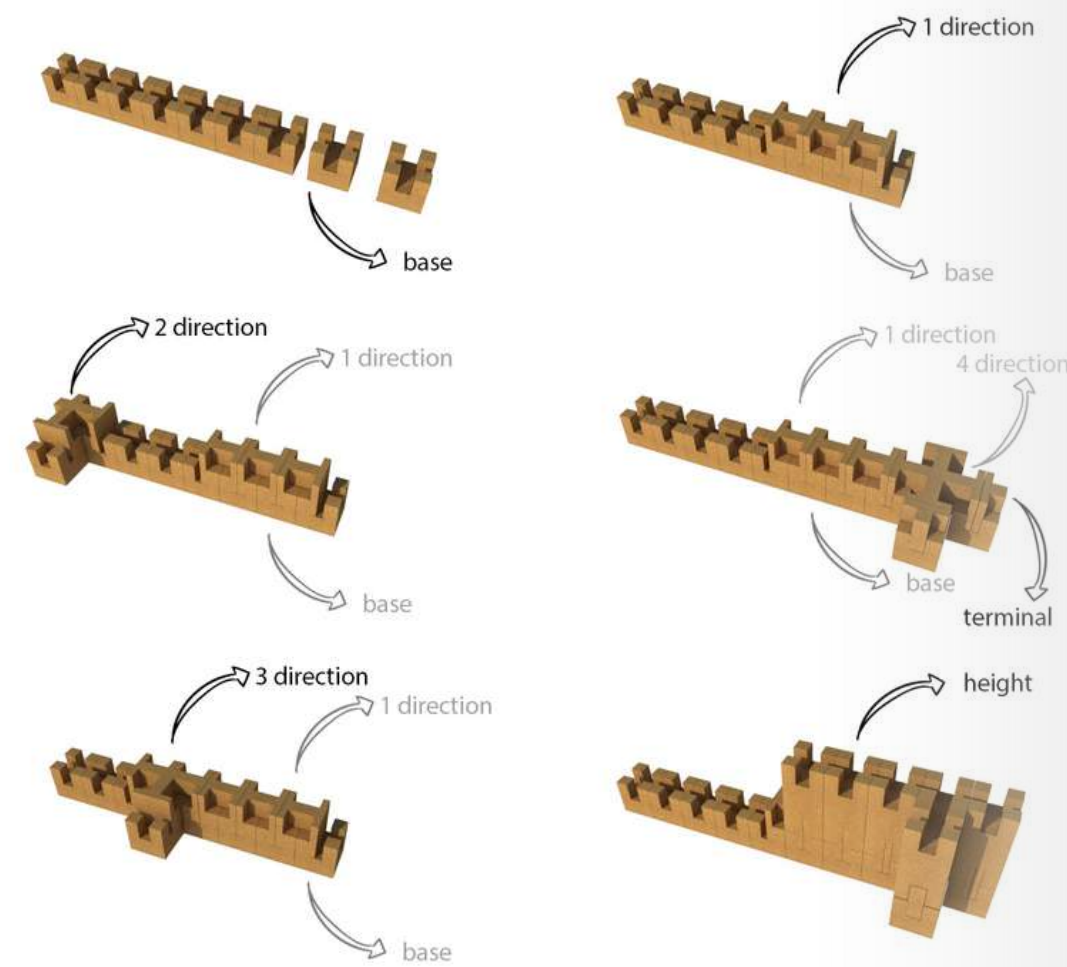

M.Reynolds

OUR PRODUCT

7 BLOCKS, COUNTLESS POSSIBILITIES

SUSTAINABLE 'LEGO' FOR REAL LIFE USE

SUSTAINABLE

CORKBRICK is made of cork - a natural and renewable super material with thermal and acoustic insulation capacities and a 360° life cycle.

DYNAMIC

CORKBRICK is a sustainable 'LEGO' for real life use. With only **7** different shapes you may create numerous configurations - and any of these configurations is **reversible, transformable, flexible and adaptable.**

SMART

Smart Living with CORKBRICK- To think about the positive impact of the materials you bring home & to your office.

With CORKBRICK we open the possibility of rearranging and adapting our own space, instead of substituting/demolishing what we already have - avoid **material and resource waste**

A **Dynamic way of curating space** that allows it's constant transformation. With a simple DIY fitting system - no tools no glues and no screws.

Smart choice is CORKBRICK - a product that will follow and adapt to you at any phase of your personal or work life.

CORKBRICK allows a **sustainable way of living**

OUR PRODUCT

DIY

Easy friendly assemblage will provoke anyone's creativity in building the different configurations required for each use - no tools, no glues no screws!

SUSTAINABLE

By reusing the same product for so many different finalities, waste is avoided. Also, the product itself, made of cork and natural glues, is recyclable

NATURAL

The core material is cork, a natural material that evokes nature with it's scent, feel and appearance. It's a natural air purifier and anti-microbial material.

MULTIDIMENSIONAL

Cork is a great acoustic and thermal insulator. It's fire resistant, and has a high compressive strength and durability

TAILOR-MADE DESIGNS| Be the architect of your own space

7 blocks, countless possibilities...

UTOPIC HOUSE

Create a dynamic Home with CORKBRICK

Having the interior configurations with CORKBRICK will allow you to change constantly. Make the structural elements and leave the rest to CORKBRICK...

By designing a dynamic home, we allow adaptation through time and avoid the need for renovation and rebuilding space, hence avoid construction and materials waste

This key factor can change the durability of a home- homes can become suitable for a lifetime rather than for a specific phase of your life, adapting to the changing family structure

SHORT/LONG-TERM RENTALS

Make the most rentability of your space by **adapting it to your clients needs**

Easily transform your 1-bedroom apartment into 2/3/as many as you want bedrooms apartment with **no need for licensing or construction works**

Easily transform your space into a **co-living**

Easily transform your space into a **co-working**

Easily transform your space into **student dorms**

TAILOR-MADE DESIGNS | Be the architect of your own space

DELFT WORK CAPSULE

CORKBRICK's Work Capsule gives you everything a working space needs! Each side features a specific function to promote teamwork, and aspire innovation.

Meeting Corner - where you can have one-on-one talks or videocall meetings with a cosy enclosure that gives you some sound isolation;

Whiteboard Corner - Where you can brainstorm and discuss your ideas with your colleagues.

Presentation Corner - Where you can present your ideas to your colleagues

Relaxation Corner - Where you can take a break and relax! Cork material offers great confort with it's soft and warm touch and flexible composition.

Moreover, these 4 corners end up creating the perfect **Meeting room** for a more private gathering, or more important meetings whenever needed

7 blocks, countless possibilities...

STAIRCASE DESIGN

Do you need a smart modular solution for a staircase in your home?

You can ask for a project or order a customized project of yours and we will make it possible!

Tailor-made staircase, that you can assemble yourself!

TAILOR-MADE DESIGNS | Be the architect of your own space

7 blocks, countless possibilities...

BABY GYM / SCHOOLS

CORKBRICK's Baby gym will allow children to use their imagination and create their own space. Also, the material CORK is harmless in any bumps or falls!

The blocks allow kids to easily assemble and disassemble and it's lightweight.

With this system every space can have several possible configurations, adapting space to the phases and events in a School or university: Creating Showcase Galleries, Annual Theatres, Assemblies,...

With CORKBRICK we believe that all of these activities can be held in an optimized way, also promoting collaboration between the students and teachers in building the different sets: stimulating creativity, activity and teamwork with a sustainable, no waste, solution!

ESTORIL / OEIRAS SPORTS EVENTS

Having a big Sports Event and need a seating plan for your participants?

Here is a solution for you!

Make your own or request a special project from us and you can get a multi-use sport bench that can later transform into the podium at the end of the competition!
