Mirrors.social

Monetize your audience with your AI-reflection

Mirror yourself in AI.
Engage and monetize your audience 24/7.

What is mirrors.social?

Mirrors.social is an innovative platform where **influencers** can **create an AI reflection of themselves**.

This **AI version can interact with the audience around the clock**, providing influencers with a **way to monetize their audience** without constantly investing their own time.

How does mirrors.social work?

Our platform offers a plethora of **connectors** allowing the **AI to learn** from your chats, social channels, and more. The **result is a smart**, **conscious digital version of you**, **mirroring your traits**, **conduct**, **social conventions**, and **style**.

How do I monetize my audience with mirrors.social?

Your AI reflection will be **deployed** on **various platforms** such as Telegram, and **you can set a rate per minute that your audience spends with the AI version of yourself**. You **take 80% of the revenue**, while we keep only 20%.

How do I create an AI reflection of myself?

Creating your AI reflection is easy. Once you sign up, you **can connect different data sources** like YouTube, Twitter, and WhatsApp chats. The **AI will automatically shape itself based on the data provided**, crafting a digital version of you

Is my data safe with mirrors.social?

Absolutely. At mirrors.social, we **prioritize** your **privacy**. We use advanced **data encryption** and **secure storage systems** to protect your data. We will **never share or sell your data** to third parties **without your consent**.

What platforms can I deploy my AI reflection on?

Currently, we **support deployment** on **multiple platforms including Telegram**. We're always working on expanding our capabilities, so **stay tuned** for more updates.

Can I control what my AI reflection says and does?

Yes, you have **complete control over your AI reflection**. **You can decide which data to use in shaping your AI** and establish its acceptable behavior and social values.
