

# Revolutionizing Digital Wallets: A Comprehensive CRM Solution

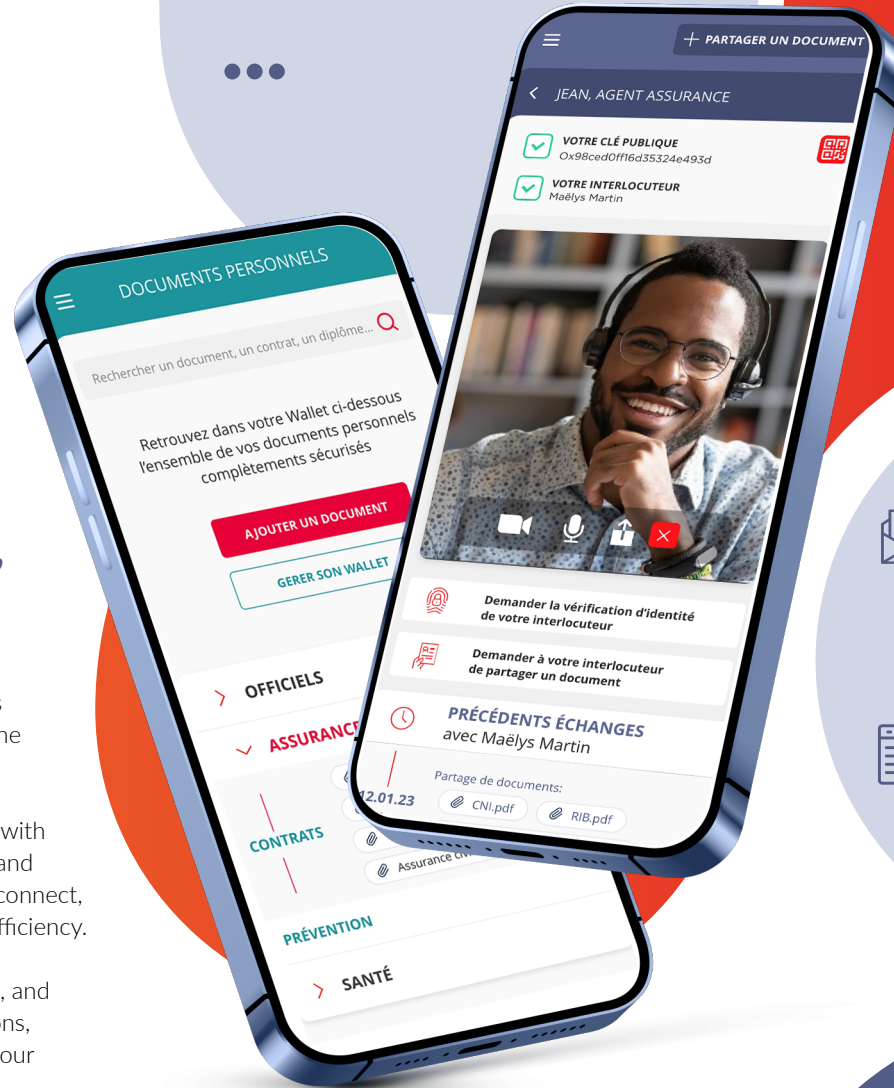

**Streamlining communication, ID verification, and document exchanges like never before.**

Transform your digital interactions with the power of trust and seamless document processing across expanding channels, be it in person, over the phone, on the web, or in the futuristic metaverse.

Entice the ever-connected, tech-savvy digital natives and Generation Z with our wallet service that promotes not just ease-of-use, but also security and transparency. We're revolutionizing the way businesses and customers connect, streamlining processes and ensuring every exchange fosters trust and efficiency.

Step into the future of communication, where every touchpoint matters, and every conversation counts. Welcome to the new era of customer relations, where we empower you to be as digital, as dynamic, and as diverse as your audience.

**Anywhere,  
Anytime**

## Robust ID Verification:

Coneix provides quick and reliable identity verification, safeguarding and replaying your credentials regardless of time or place.

## Streamlined Communication:

Coneix facilitates efficient, seamless interactions, ensuring clear communication anytime, anywhere.

## Secure Document Exchanges:

Trust in always encrypted data and confidential computing for safe, secure document exchanges around the clock, wherever you are.

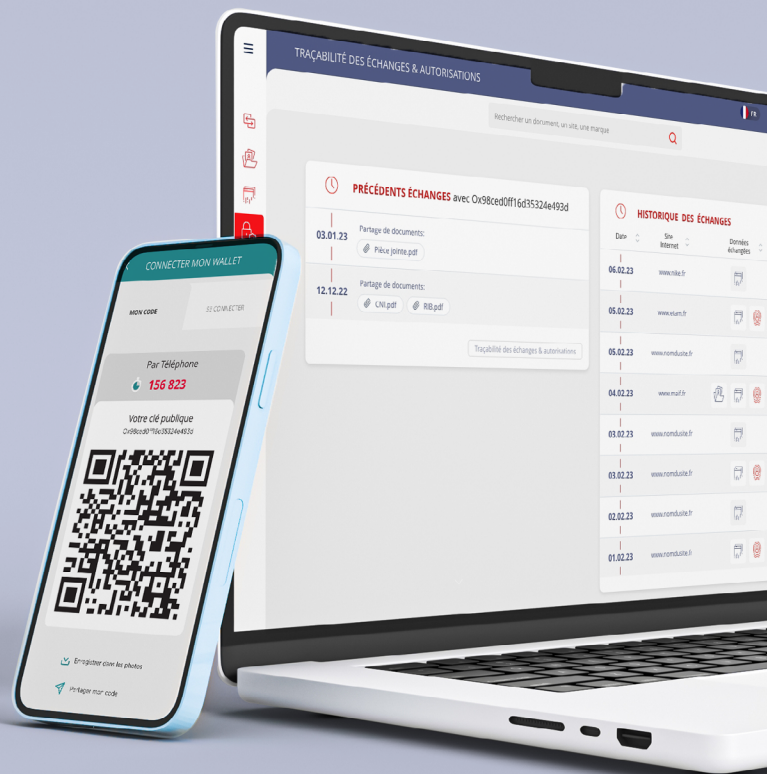

## Cross-channel Traceability and Compliance:

Coneix assures seamless traceability across channels while meeting rigorous compliance standards, offering you peace of mind, no matter the time or location.

Welcome to Coneix, the ground-breaking solution that takes wallet-based services beyond their traditional confines. This isn't just about payment, digital assets, or digital identity; it's about unifying those features and delivering a seamless and secure customer experience.

- ✓ With Coneix, you get a powerful, **all-in-one service** that integrates communication, ID verification, document exchange, and traceability. It's about turning your wallet or mobile app into a versatile, multi-channel touchpoint that puts customer service portability at its core.
- ✓ **Compliance is a breeze** with Coneix. Embedded ID verification and signature services tailored to meet stringent insurance and financial regulations bring peace of mind to businesses. Our cutting-edge system ensures you meet and exceed regulatory demands without compromising functionality.
- ✓ **Privacy and data security** have never been more crucial. Coneix's 'always encrypted' approach coupled with Cloud Enclaves for personal data handling means you're not just meeting GDPR requirements; you're setting new standards in privacy-first operations.
- ✓ Built on an **innovative Web3 framework**, Coneix provides value for all. Customers will appreciate the simplified processes and superior experience, while businesses benefit from regulatory compliance, improved productivity, and customer retention. Experience the future of digital wallet services with Coneix.

## Case study: Imagine being part of a dynamic network centered around a car insurance provider.

With Coneix, the traditionally fragmented process of cross-channel onboarding becomes a smooth, efficient journey. Regardless of the platform - in-person, phone, or online - Coneix swiftly handles onboarding and support interactions, providing essential details as soon as a customer connects via their wallet.

The power of Coneix extends further. Picture needing to rent a car from a partner firm. Instead of repeating the cumbersome KYC procedure, with Coneix, customers can simply 'replay' their already verified details, allowing automatic onboarding with the car rental company, and swiftly provide a payment guarantee.

To sum up, Coneix revolutionizes multi-channel interactions and support, secure document exchange, and seamless onboarding across services. It's the future of digital wallet services - efficient, easy, and secure.

*Fears of a complex setup vanished quickly - it was as easy as adding a new app to my phone*

*Sign-up paperwork for insuring my leased electric car was simplified significantly, with clear tracking of all exchanges and swift detection of any missing documents*

*It's a game-changer not having to repeat myself every time I contact customer service - a truly customer-centric experience*
