# Sharvy

Digital solution to manage and optimize shared spaces in a company

## All-in-one app to manage your resources

Parking lot management
Give access to your parking lot to all or part of your employees.

Workstations management
Implement flex office and desk sharing in your offices.

Canteen management
Organize flows and avoid waste by anticipating the number of attendees.

Up to 30% space savings

20,000 parking spaces managed

## In a few clicks, your employees can reserve a space according to their needs

1. Creation and configuration of resources, spaces, users...

2. Declaration of use of its place by the holders and **request for reservation** by the other collaborators

3. Automatic allocation of spaces via our equity algorithm or by chronological order of requests

4. Statistical follow-up by the administrator
