Delicate fragrance + Memory label

The AC fan blade design has been used for many years within the automobile industry and has only been changed once Tesla released it.

We realized how the brand created a futuristic aesthetic that no other brand has ever done it before.

Electric vehicles do not rely on fuel, do not emit exhaust gas, As long as it is fully charged, it can be sent out

Save the climate.

The world enters the era of electric vehicles.

After years of development and testing, with the insist on aesthetics and perfect proportion by designers, finally, the SCENTAG magnetic ceramic car air fragrance was born,

During the Post-Covid era, We want car owners to experience new aesthetics and quality within the car environment while surrounded by cleansing and safe air quality when they enter their car every moment.
