

# Operational Excellence. Made Human.

HakoBio puts the human at the center of your production activities. Using intuitive digital twins, it makes factory information easily accessible and empowers your teams to leverage knowledge across the entire factory lifecycle: from process planning, to operator training and operation management.

## Asset Management

**Transform visual data into action.**

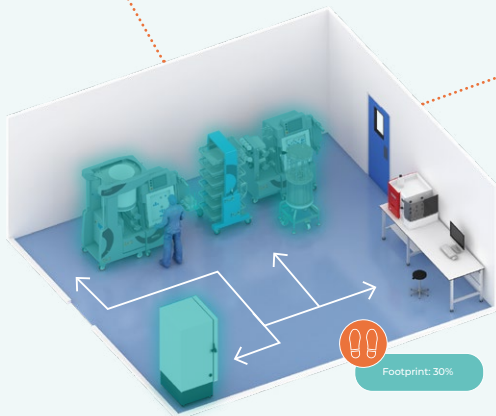

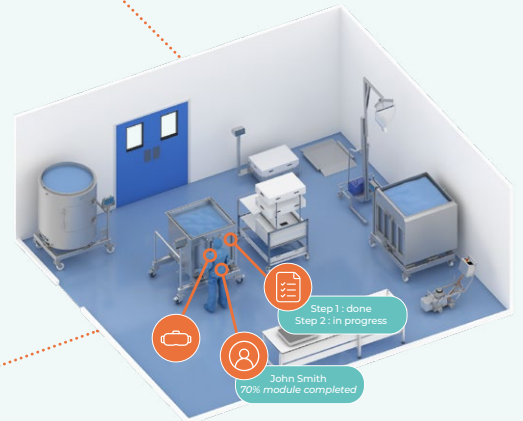

Simplify access to centralized facility data and information through its connected digital twin.

## Immersive Learning (HakoBio Academy)

**Accelerate operator readiness.**

Customize virtual and mixed reality training experiences to increase information retention.

## Design & Simulation

**Simplify continuous process improvement**

Leverage facility information to simulate your production process and optimize its layout and footprint.

Easily create your digital twin now at [hakobio.com](https://hakobio.com)
