

CLINIT

New Generation Hygiene

VIVATECH 2023

Our raison d'être

Nowadays, health and hygiene are more than ever an important matter, especially with the global pandemic we went through.

Handwashing, hydroalcoholic gel, masks, have become common reflexes but still, some surfaces remain full of germs and never treated.

Especially handled object like keys, pen, connected watch or the worst of all, the smartphone.

Disinfection solutions for these objects exist but their either are chemical product or generating waste when it is not both.

From that conclusion, we decided to design and manufacture a reliable solution, efficient and good for the planet, to preserve everyone's health.

Who are we ?

Morgane and Laurent know each other for more than 20 years.

They complement each other in their expertise and their personality. The idea of e-Box® came in 2019 and CLINIT came true in May 2021.

They are working in a Toulouse business incubator where they are doing research and development as well as the product assembly and expedition.

Since September 2022, Flavie has joined the team to develop and accelerate the commercialization of e-Box®.

Our values

Creative innovation, our business core

Technic without concession for new uses purpose

Sustainable **quality**, a shared ambition

Conception and manufacturing in France, high repairability rate and reliable technology

Customer **satisfaction**, a necessity

Transparency, accessibility and responsive after-sales service

Socio-environmental respect, what brought us together :

Employee valorization and recycled materials

e-Box® by CLINIT

Ultraviolet-C disinfection box

Efficient, eco-responsible and ergonomic

FABRICATION FRANÇAISE

New generation disinfection

For every accessories ! Smartphone, connected watch, earphones, gamepad, accessories, ...

- **Easy to use** : open, place the object inside, press the button and after 10 minutes, it is all disinfected !
- **Maintenance free** : wiping with a dry cloth and an empty cycle is sufficient

Technical characteristics

Patent : FR2110957

Dimensions :

Ext : 250 x 130 x 80 mm

Int : 226 x 106/84 x 47 mm

Weight : 545 gr

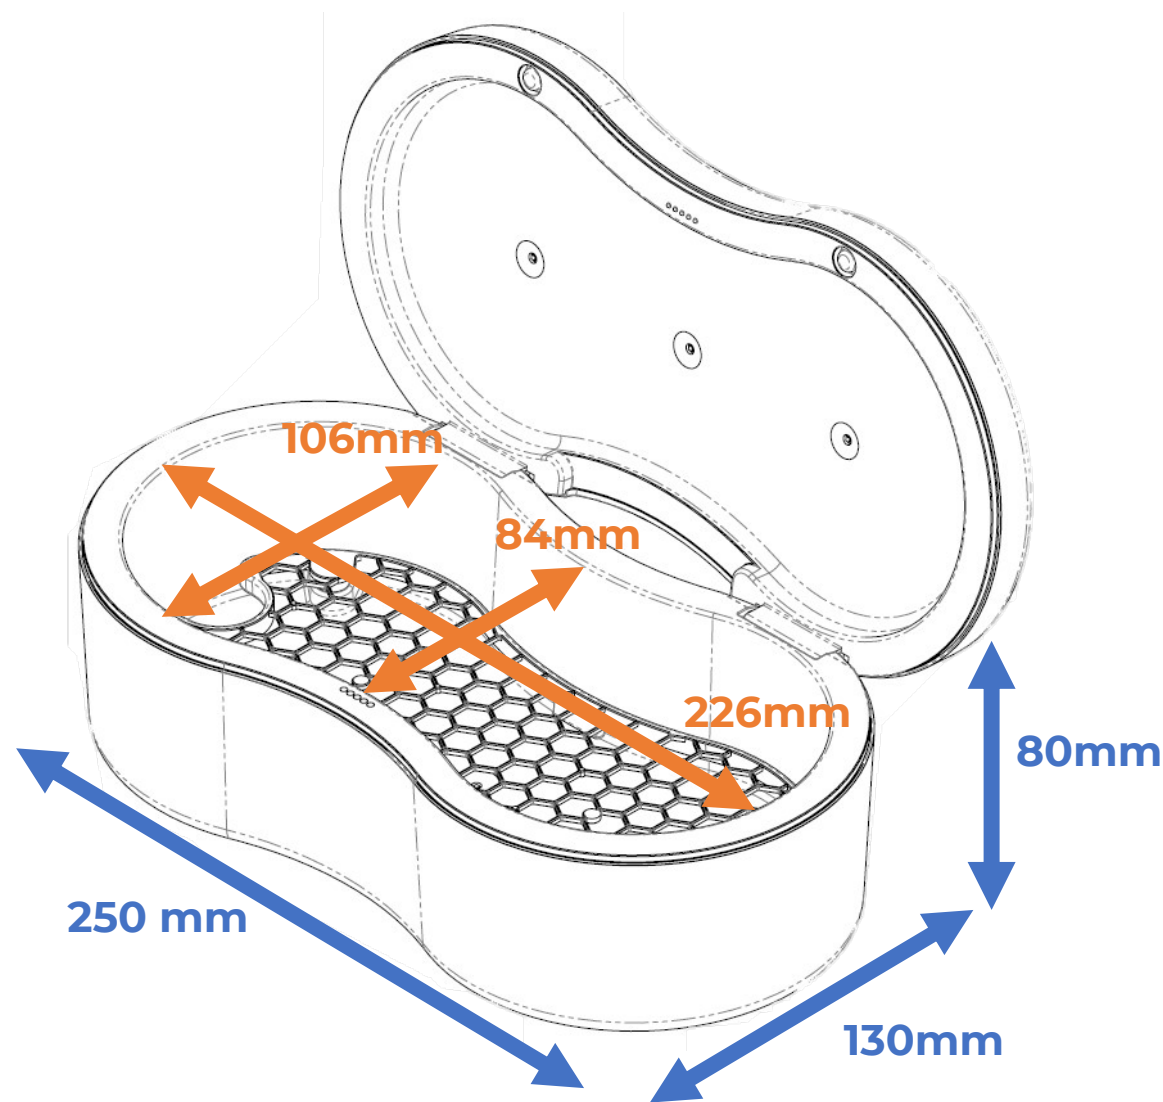

Cycle time : 10 minutes

LEDs number : 6

Power : 1,25 W

The box contains :
e-Box® & USB-C cable 2m

Alimentation (not supplied) :
5 VDC - 1 A
