

TELEPRESENCE ROBOTIC AVATAR EDUCATIONAL ROBOT ELDERCARE COMPANION WELCOME PARTNER ROBOTICS DEVELOPER PLATFORM

Buddy[®]
The Emotional Robot

With Buddy, we are entering a new era where robotics will take over our daily lives.

Assist, Welcome, Connect, Entertain, Inform, Educate, Monitor: these uses are only the premises of a revolution in the relationship between human and machine.

Blue Frog Robotics and its partners support you in integrating this new relationship.

THE SENIOR COMPANION

A device with an engaging personality, serving the aging well of our seniors living alone at home or in an institution, to watch over them, enliven their daily lives and break them free from their isolation

THE EDUCATIONAL AND PROGRAMMABLE ROBOT

To support children's learning or to assist the teacher, Buddy allows to learn differently while having fun and preparing for tomorrow's world. Usable from kindergarten, Buddy is also an advanced development platform for application projects in higher education.

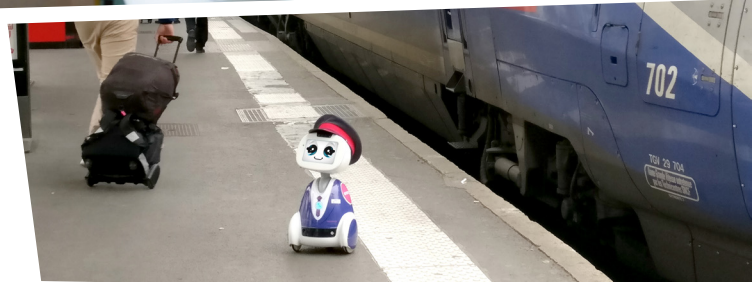

THE ASSISTANT OF THE MOST VULNERABLE

To support sick children in isolation, Buddy installed in the classroom or at home as an avatar controlled remotely via a tablet, allows hospitalized children to attend classes, interact with their classmates and teachers or to continue to be physically immersed in their family. To improve the daily lives of children with emotional, behavioural and autistic spectrum disorders, Buddy is a reinforcer to help them better communicate and learn.

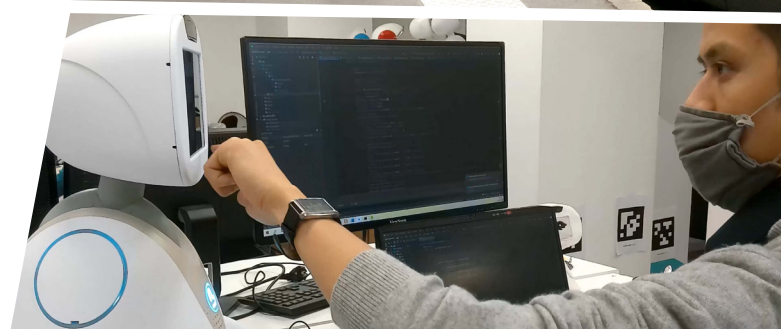

THE PARTNER OF YOUR WELCOME AND YOUR EVENTS

Endowed with an engaging interface that appeals and arouses emotion, Buddy can take on several missions in different places welcoming the public to share a new experience. Buddy, with a smile and its big sparkling eyes, welcomes, informs, presents your offers and services or can animate your events and guide your customers in a fun and innovative way.

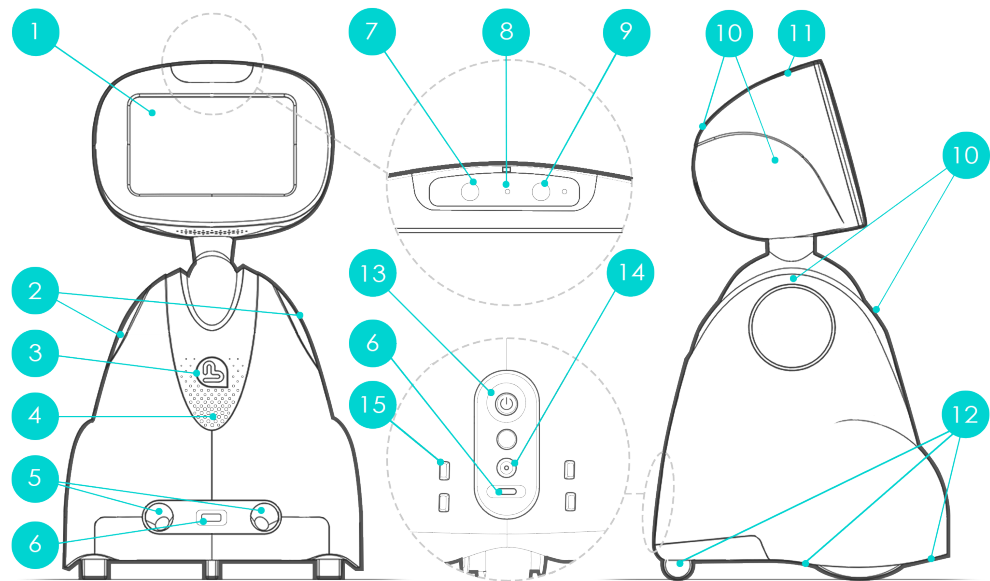

IDEAL SOLUTION FOR DEVELOPERS

An open and scalable platform with its development tools (SDK) to give life to a companion with incredible potential. The only limit of use is the imagination !!!!

APPLICATIONS PACK

-  Mono-app pack
-  Multi-app pack
-  Development pack

Choose the pack adapted to your needs, the choice is yours!

TAILOR-MADE APPLICATIONS

Because each project is unique, we offer adaptation or "tailor-made" developments to perfectly meet your users' needs. And, if you feel the soul of a developer, you can also develop new capabilities for Buddy by accessing our development platform with its Android-based SDK.

Any other specific application ...
