

Build a connected learning culture

Peer learning and collaboration for the future of work

Why you need a connected learning culture?

Because in a network economy value is created and distributed in social networks.

Learning as a culture

In today's rapidly changing environment, employees need to continuously learn in order to be adaptable, productive, and innovative. A connected learning culture is the transformation of a workforce into a community of lifelong learners.

#GROWTOGETHER

Connection

Leverage the importance of social interaction and collaboration for learning for powerful personal learning experiences. Next to developing new skills, employees need will build relationships and bonds.

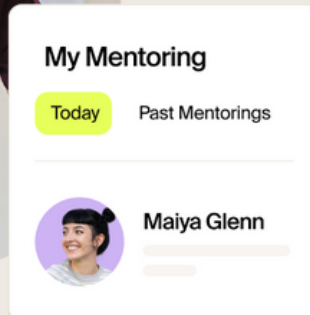

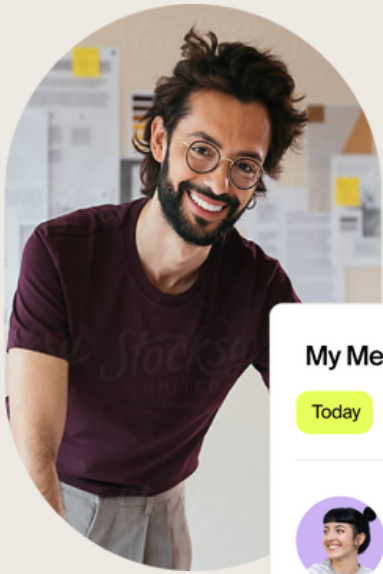

Support

Recognize the importance of diversity and seek to create inclusive learning environments where everyone can get the help they need to thrive.

Learning

Harness the power of informal knowledge that can't be accesses in any other way. Remove barriers for people to meet, share, and grow together.
