450.000

Websites created with WebSite X5.

WHY CHOOSE US

Our target is huge.

Private users, traders, artisans, small and medium-sized enterprises, non-profit associations, sports associations, schools etc... We develop software that allows anyone to make their business or passion popular on the web, easily and quickly.

Our software ranks in the Simple Website Builder worldwide category, position number 8.

The products are digital, no logistics. Technical support on software by Incomedia.

OUR **SOFTWARE**

WebSite X5 is yours forever,
with no monthly fees.

What is it?

WebSite X5 is a software that guides you through each step of creating professional websites, online stores, and blogs, without needing to code. **Follow the program's 5 STEPS**, take advantage of the Drag & Drop editor, and use template and object presets to easily create responsive sites that are compatible with all browsers and the latest mobile devices.

WebSite X5 is yours forever, with no monthly fees.

With 1 license, you can work on 2 PCs and create as many sites as you like. Plus, since the software is installed on your PC, you can work anywhere, any time, even without an Internet connection.

WebSite X5 comes in **3 different editions**:

With over 17 years of experience, my background is in commercial photography and I received a Bachelor's Degree in

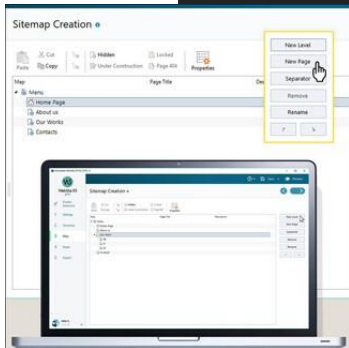

STEP 1

Set up your project: Select the type of website you'd like to create and activate the features you'll need: shopping cart, blog, secure pages, etc.

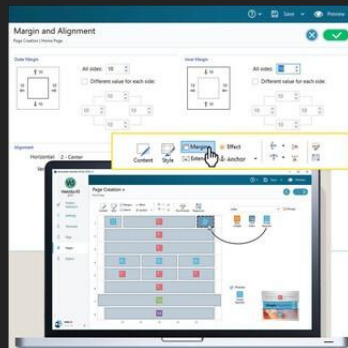

STEP 2

Choose your template: more than 100 template presets or create your own template from scratch. You can use the internal editor to customize it however you like.

STEP 3

Organize your site: Add all the pages you need. A navigation menu will be created according to the site map, active from the very first click.

STEP 4

Create the pages: Insert your content: text, photo galleries, videos, forms, social media buttons, etc. Drag & Drop makes it easy.

STEP 5

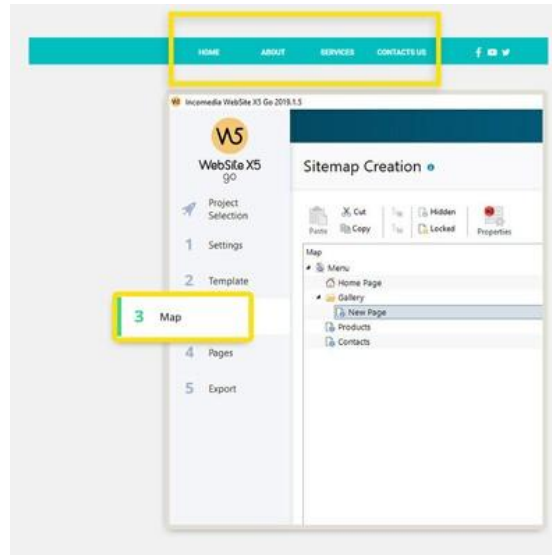

Publish your site online: register the domain name and take advantage of the included service to publish your website with the internal FTP engine.
