Revolutionizing Business
Networking with
AI-Powered Dynamic
Content Cards

The unique value proposition of Cmylead lies in its convenience, flexibility in design, and combination of interactive features. A SAAS product built for international enterprises & B2B companies by a combination of a tech company and traditional printers.

- Due to Covid-19 and the world recession, meetings are less physical, and so are business cards.
- Employment rotation is spinning much faster, especially with the Z generation defining eternity as 2 years. Costly leads are lost with the change of personnel.
- Large enterprises must meet ESG requirements.
- So CmyLead took the business cards one step further and created an information channel and lead generator through a dynamic business card and email signature.
- Thus the timing is perfect for CmyLead as companies need an effective, environmental friendly, multi language, digital tool that can create and retain leads.

Multil Languages

Connect Worldwide, Share your profile in 9 languages, and we keep expending.

CRM

Track and measure the effectiveness of your networking efforts in real time.

Reports

Monitor your team's spending and track interactions with potential clients. Our customizable reports include metrics such as the number of digital cards created, views, clicks, shares, and more.

Artificial Intelligence

Input your name, title, and company into CmyLead. The system then makes an API call, using its programmed algorithms to swiftly generate a unique, professional bio from your details.

- Available online as it is a SAAS product available in multiple languages using AI.
- Creates automatically a lead with no effort from the receiver that is transfers to the CRM
- CmyLead delivers to the customer administrative management metadata and efficiency rapports

That's not all!

We sure you'll find what you need among our unique features

Customize your unique virtual background, share your profile by the easiest way, create a dynamic email signature and add links to your social media to be in touch with other users

Social Media Links

At CmyLead, we provide the tools you need to enhance your networking experience and build meaningful connections. Explore our range of features and take your networking efforts to the next level.

Referral

Earn rewards by referring new customers to the platform. Whenever someone signs up, the user earns a reward. This incentivizes users to spread the word about the platform and helps attract new customers.

Branding & Audio File

The customization feature lets you create a consistent look and feel across your digital communication channels.

Centralized Administration

Simplify the management and control of digital business cards for organizations of all sizes.

“

"I love how I can customize my Cmylead to reflect my personal brand. The interactive features like adding my social media profiles and portfolio make it easy for potential clients to connect with me and see my work. It's a game-changer!"

Susanne, Freelance Designer

“

Cmylead cards have transformed the way I network and share my contact information. With just a simple tap, I can instantly share my card with anyone I meet. It's convenient, professional, and makes a lasting impression."

John, Sales Professional

“

"Those who do not "go crazy" when they see Cmylead, do not understand the product!"

Tom, Purchase manager

“

"The centralization capabilities of Cmylead provide valuable analytics and insights into contact engagement, tracking views, clicks, and interactions with customers. This data help us to understand how our team is performing and optimize their networking efforts accordingly."
