# MARKET POTENTIAL

6000 EVENTS ARE HAPPENING  
EVERY YEAR IN THE WORLD

# OUR EXPERIENCE

VIVA  
TECHNOLOGY

GITEX  
GLOBAL

CES

# PROBLEMS

01.

## VISITORS

- › Physical attendance needed
- › Impossible to explore everything
- › Low efficiency of networking

02.

## PARTICIPANT

- › Auditorium limited by location
- › Auditorium limited by time

03.

## ORGANIZER

- › Limited time hosting
- › Online platforms low efficiency

# SOLUTION

## ELONGATED EXHIBITION | SUFFICIENT TIME TO EXPLORE

Super low cost of virtualization. Hybrid solution.  
Opportunity to offer expo online/offline.

### ADVANTAGES

#### ▶ For Visitors

- › Accessible from any location, at any time
- › Similar impressions
- › Smarter and better Networking

#### ▶ FOR PARTICIPANTS

- › Massive virtual auditorium engagement
- › Network enlargement
- › Targeted invitations to targeted customers

#### ▶ FOR ORGANIZERS

# BUSINESS MODEL

Venue owners are paying us to have the 3D version of empty space. They use the solution for space demonstration remotely.

Organizers are paying us to have the entire space and use it for marketing.

Exhibitors are paying us to have a 3D version of their booths and engage more virtual visitors through email marketing, SMM, and embedding the content directly to their Web sites.

# INVESTMENT REQUIREMENT

350K USD

# PROGRESS DURING LAST 6 MONTHS

- ✓ We have experience working in 5 countries.
- ✓ We incorporated a company in Delaware and have 1 fully equipped scanning specialist in LA.
- ✓ We have strategic partners in the Netherlands who are negotiating with top venues.
- ✓ We are contracted with a company in Dubai that will introduce our platforms in UAE.
- ✓ Next month we will participate as exhibitors in Vivatech 2023 and now we are in negotiations with them and it is highly likely we will become their virtualization partner.
- ✓ We are selected by the ARFI organization and now we have a good opportunity to raise up to 2.5 Mln \$ through a public crowd investment platform.

**THANK  
YOU**
