

Inspired by **Olivetti**. Designed in **Canavese** Valley. Made in **Italy**.

Aesthetic Solar Technology

Problem

Solar panels are ugly but essential

Cities clean energy needs growing fast

Regulations prohibit use of solar panels in cities and historical centers

Solution

Turn any surface into a solar plant that generates **clean energy** with Sunspeker's **"See Beyond"** cover

- Patented technology
- 100% Aesthetic Integration
- Fully recyclable
- +80% solar efficiency

Addressed SDGs

7 AFFORDABLE AND
CLEAN ENERGY

11 SUSTAINABLE CITIES
AND COMMUNITIES

Solution (Real)

Solution (Simulation)

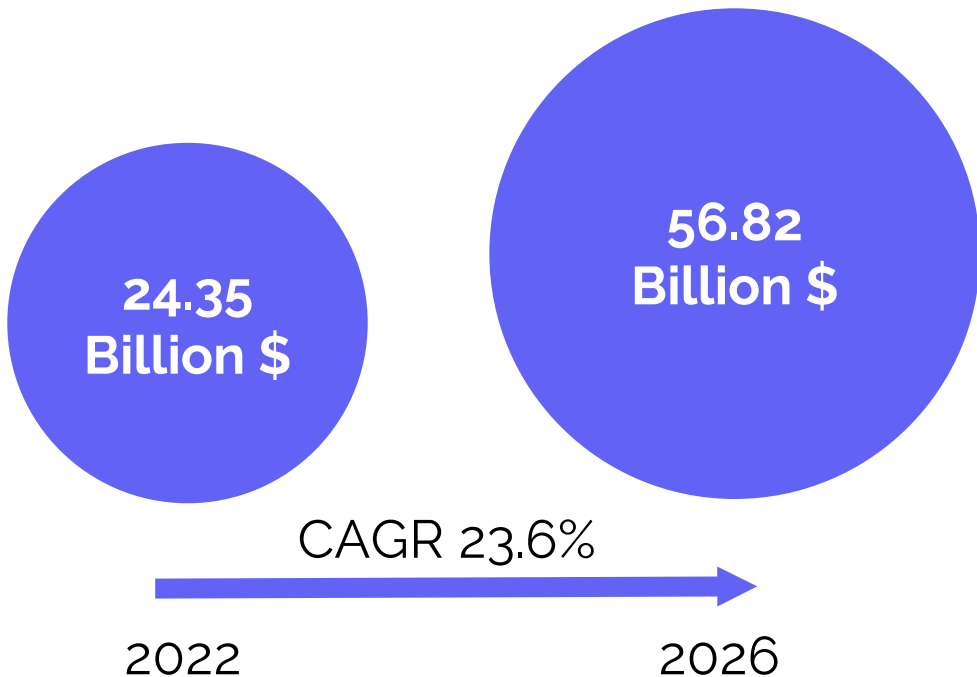

Competition

Market Size

BIPV - Building Integration Photovoltaic- Global Market

Market Opportunities

EU '**solar rooftop initiative**': **mandatory** installation of solar panels on all buildings by 2029

European Commission

EU will **double** solar energy generation reaching **600 GW** by 2030

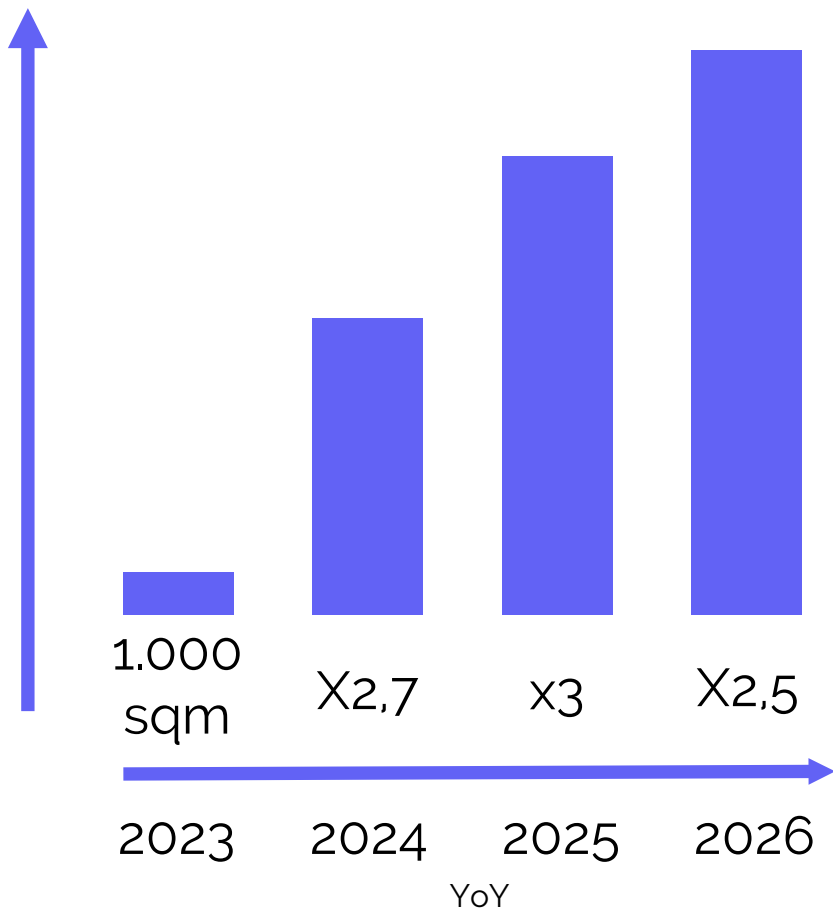

US **Greenhouse Gas Reduction Fund**:
\$27 Billions for Solar Rooftop within 2024

Revenue Model

**Sunspeker sell
“See Beyond” cover to:**

- **Solar Panel Manufacturers**
- **Solar Panel Distributors**
- **Solar Panel Installators**
- **Energy Utilities**

Future Launches

Dynamic Solar Screen (undergoing test)

Invisible Energy™ patented technology to ride the digital transformation with a screen powered by the sunlight.
