

# PERFECT

**The Global Leader in AI and AR-Powered  
Beauty and Fashion Tech Solutions**

## BEAUTY TECH

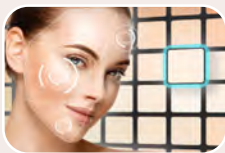

Bring your products to life with state-of-the-art AI & AR technology.

### Hyper-Realistic AR Virtual Try-On

**Makeup:** allows users to virtually try-on lipstick, blush, mascara, and more.

**Hair Color:** allows customers to virtually experience hair colors in real-time.

**Nail Art:** lets customers experience real-time virtual manicures.

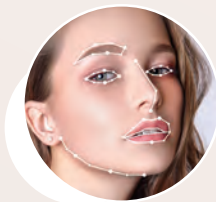

### AI Foundation Shade Finder

Ultra-precise AI deep learning algorithms detect over 89,000 skin tones to match customers with the best foundation shade.

### AI Face Analyzer

This AI-powered ultra-personalization engine provides custom product recommendations tailored to users' unique features.

### YouCam Tutorial

This first-of-its-kind AR makeup learning platform features animated brush stroke overlay animation to provide customers with personalized step-by-step makeup tutorials.

# FASHION TECH

AI & AR-powered solutions offering true-to-life, fully-customizable virtual product try-ons.

## Virtual Try-On for Glasses

Fully customizable SKUs and pupillary distance auto-detection ensure hyper-realistic virtual experiences.

## Virtual Try-On for Earrings

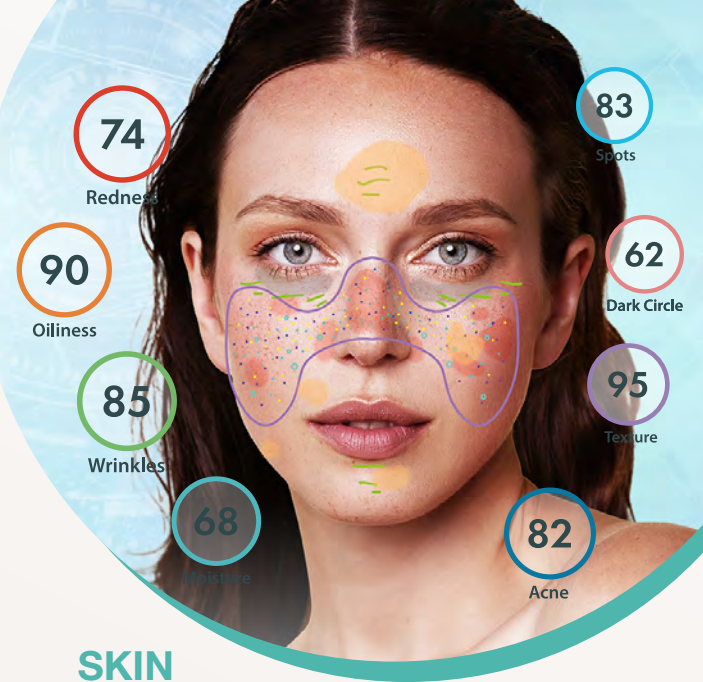

High resolution textures, material reflections, and simulated motion deliver the best AR effects.

## Virtual Try-On for Rings, Bracelets and Watches

Patented AgileHand™ technology ensures hyper-realistic virtual try-ons of accessories on hands and wrists.

## SKIN DIAGNOSTIC

Dermatologist-verified AI Technology provides every customer with a detailed skin assessment and personalized product recommendation.

### Ultra Precise AI Skin Analysis & Product Recommendations

The powerful diagnostic tool analyzes up to 14 skin concerns to provide the best possible product recommendations, tailored to each unique user.

Verified by Skincare Professionals

Boosting Skincare E-Commerce Sales

Best Alternative to Online Skin Questionnaire

### AI-Powered Skin Emulation

Visualize improved skin with AI-powered emulation, removing up to 7 skin concerns.

### AI Skin Tech On the Go

Skincare Pro app available on iOS allows med spas/ clinics to offer their clients a highly accurate AI skin health analysis with flexible pricing and subscription plans.
