

# Hypor Magnus

HIGH QUALITY PIGLETS  
EFFICIENT AND  
UNIFORM FINISHERS  
MORE QUALITY MEAT

The Hypor Magnus is a top Duroc sire line that produces heavy, uniform piglets that grow into more full value finishers. Producers and processors benefit from carcasses with greater yield and a high degree of meat quality.

# Hypor Magnus

## HIGH QUALITY PIGLETS

### Heavy birth weights

The Hypor Magnus consistently produces high quality piglets with an average birth weight of 1.5 kg (3.3 lbs) with 96% weighing more than 1 kg (2.2 lbs)

### Uniform litters

The combination of heavy birth weights and uniform litters sets piglets up for early success while nursing on the sow and throughout life.

### Vital piglets at weaning

High quality piglets from the Hypor Magnus are heavy at birth, which continues to weaning, where piglets are heavy and vital, improving their ability to cope with weaning.

## EFFICIENT AND UNIFORM FINISHERS

### Reliable growth

Hypor Magnus pigs are able to grow well in many conditions, which improves barn throughput as a result of reliable performance.

### Efficient lean gain to heavy weights

The Hypor Magnus achieves the target slaughter weight efficiently, with advantages over others in the market.

### More full value finishers

More Hypor Magnus pigs reach the target market, resulting in better resource use efficiency.

## MORE QUALITY MEAT

### Greater carcass yield

The Hypor Magnus gives a higher carcass yield, which gives more revenue to the producer and the processor.

### Carcass traits for many grids

Hypor Magnus pigs are versatile and can satisfy or exceeds carcass traits requirements across many grids.

### Desirable meat quality

The Hypor Magnus consistently meets or exceeds the targets for top quality meat, without compromising on efficiency.
