PICK&GO FAMILY

1 PICK&GO BALE FORK CARRIER PICK&GO SYSTEM

The bale fork carrier 1 fits onto telescopic handlers, front loaders and rear linkage of tractors. It is designed to hitch onto Pick & Go attachments **without the need to leave the cab.**

- This range is composed of:
- 2 Dry food mixer feeder tank Mix&Go
 - 3 Bale Unroller (3 models available)
 - 4 Bale Unroller Spreader
 - 5 Silage pusher
 - 6 Modulo'Sweep

PICK&GO FAMILY

EMILY ADVANTAGES

- Productivity: fits onto the whole Pick & Go range. Time saving: thanks to the use of one single bale fork carrier.
- No extra handling needed. Versatile: the bale fork can be used for other work.

STANDARD EQUIPMENT

- Bale fork included
- Patented gear system with reinforced toothed wheels
- Hydraulic motor included
- Forks: Ø 45mm tines
- Bolted adaptation (CAT2)
- Ø45mm tines - length 1200mm

2 MIX&GO DRY FOOD MIXER FEEDER TANK

HOW IT WORKS

- The Pick&Go fork carrier of the Mix&Go can also be used with other Emily attachments.
- Designed for front loader, rear linkage, telescopic handler and compact loader.
- The Mix&Go mixer feeder tank is designed to mix and distribute dry food: meal, rolled cereals, maize grains, pulp, minerals...
- 2 models available: front left or front right.

Working of the paddle wheel:

The Mix&Go tank works with one double acting spool and is composed of two parts: one part with the mixer and one part with a paddle wheel for the distribution. No leakage occurs during the mixing and the paddle wheel enables a constant distribution.

Works with 1 double acting spool:
-1 mixer direction -1 distribution direction (opposite to the mixer)

STANDARD EQUIPMENT

- Mixer driven over sized gear
- Mixing volume 700 litres
- Mixer with inversed screws
- Ø 200 mm flexible chute

OPTION

- Manual sealproof cover (in 2 parts)

EMILY ADVANTAGES

- Simplicity: the Mix&Go mixer feeder tank needs only one double acting spool to mix and discharge a dry food ration. No need to get out of the cab.
- Performance: fast and precise mixing/feeding.
- Maneuverability : compact attachment to feed in any building with difficult access.
- Adaptability : fits onto rear linkage of tractors, front loaders, compact loaders and telescopic handlers. Can be fitted onto any existing bale fork carrier on the market.
- Reliability: low maintenance, flexible chute, proven bale fork carrier.

3 BALE UNROLLER

HOW IT WORKS

- The Pick & Go Bale Unroller unrolls round bales (wrapped bales, alfalfa, hay...).
- 3 models:
 - Right
 - Left
 - Right and left

EMILY ADVANTAGES

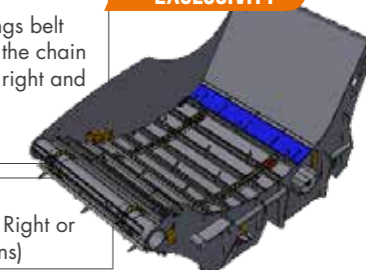

- Adaptability: 3 models available
- Time saving and practical thanks to the Pick& go fork carrier
- Convenience, sturdiness: user friendly, maintenance free, hydraulically driven.
- User friendly in 3rd point of tractor
- NEW: standard equipment: seal flap

STANDARD EQUIPMENT

- A 20 galvanized hangs belt and teflon guide under the chain
- Removable sides (for right and left versions)
- Seal flap

OPTION

- Bale retention kit
- Removable sides (for Right or Left Pick & Go versions)

4 BALE UNROLLER SPREADER

HOW IT WORKS

- The Pick & Go Bale Unroller **spreads (up to 6 m) and unrolls** round bales (wrapped bales, alfalfa, hay...).
- 4 models are available:
 - Left front spreading and right unrolling
 - Left front spreading and left and right unrolling
 - Right front spreading and left unrolling
 - Right front spreading and left and right unrolling

EMILY ADVANTAGES

- Patented: Unrolling at the opposite side of the spreader, optimization of the machine functions.
- Precision : a cubicle kit composed of a deflector and adjustable visor (optional).
- The bale fork carrier is hitching all the Pick&go attachments: round bale unroller, feeder tank, silage pusher and Modulo'sweep

STANDARD EQUIPMENT

- A 20 galvanized hangs belt and teflon guide under the chain
- Large diameter spreader with free wheel system • Bale support roller with straw guard flap

5 SILAGE PUSHER

The Silage Pusher fits the Pick & Go bale fork carrier and any bale fork on the market. The Silage Pusher pushes feed along feed barriers (silage, hay...) on the right or left hand sides.

EMILY ADVANTAGES

- Adaptability : it fits the Pick & Go Bale Fork and most bale forks of the market.
- Convenience, sturdiness: maintenance free. Fast and convenient: right and left working.

6 MODULO'SWEEP

The Modulo'sweep moves bulk volumes of waste and dirt very easily and fits the Pick & Go bale fork carrier or any machinery handler with pallet forks.

- 4 models are available.
- NEW (optional) : The side retainers hold materials in front of the brush eliminating side spillage. All Modulo'Sweeps can be fitted with side retainers.

EMILY ADVANTAGES

- Fast: removable brush parts within 1 minute.
- Convenience, sturdiness: thickness 5 mm and locking by 4 handles.
- 10 Bristles per brush segment, 3280 bristles per brush component (new on the market).
