

TRAILED 2500L

TECNIS 1.0

Tecnoma 
GREEN'NOVATION SOLUTIONS

NOVELTY

The TECNIS family is growing and complementing itself to meet all market needs with the arrival of TECNIS 1.0, dedicated to family farms as well as mixed farming livestock.

Tecnoma TECNIS 1.0

02

03

RELIABLE.SIMPLE.PRECISE.

The Tecnis 1.0 is the right equipment for all family and mixed farms thanks to its compactness, reliability and ultra-ease of use.

The Tecnis 1.0 offers a useful capacity of 2500L and boom widths from 18 to 24m. A large 260L rinsing tank allows very good use of clean water in any situation.

Precision

THERE IS NO JOB THAT RESISTS IT

A CONCENTRATE OF RELIABILITY AND PRECISION

TECNIS 1.0

ACTIVE REGULATION

The right dosage at any time even when reopening the boom after turning in the headlands.
Integrated field corners solution: spraying starts with predefined speed before having the actual speed info for accurate application.

- Increase quality of the spraying application.
- No more under or over dosage.
- More peace of mind during spraying jobs.

NOVELTY

AND SO MUCH MORE ...

- Automatic section cut-off.
- Lightbar guidance.
- VRC modulation.
- Task controller: Positioning of the machine in the field.
- ISOBUS TERMINAL pilot.

Tecnoma 

TAKE BACK YOUR PEACE OF MIND.

INDICATE THE DESIRED RATE, THE MACHINE WILL DO THE REST

Pump

- ▶ PM500 pump.
- ▶ 250 l/min.
- ▶ Self-priming.
- ▶ Capacity to reach 15 bar pressure.

Tank

- ▶ 2500L usable volume.
- ▶ 260L rinsing.

Induction hopper

- ▶ Stainless steel can wash nozzle

06

07

TECNIS 1.0

Regulation

- ▶ DPAE regulation by mean of flowmeter.
- ▶ Active regulation as standard.

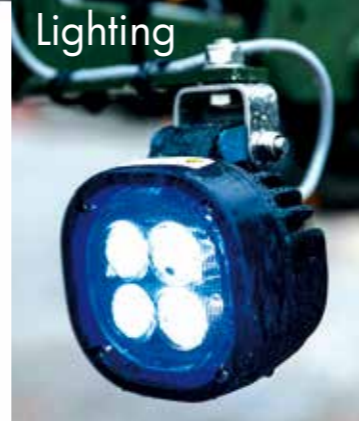

30 year experience with flow control and still the right application rate !

Boom

- ▶ 18 to 24m.
- ▶ Hydraulic folding.
- ▶ Partial fold depending on the Pack selected.

Lighting

- ▶ Optional LED working lights.

Agriculture
All in One

Suspension

- ▶ Axial suspension on central pivot with hydraulic tilt control.
- ▶ Boom mounted on a parallelogram with hydraulic cylinders equipped with a nitrogen damper.

Tecnomat 

TECNIS 1.0

hydraulic folding / section cut-off / axial suspension
flowmeter / granulometry / droplet size

Parallelogram / stainless steel pipes / quadrix
regulation / DPAE / tilt correction

anti-drip / suspension / anti-yaw

Self-priming pump / 250 l/min

ISOBUS / ZNT / inserts

drift / GPS receiver

can wash / valves

precision

Smartop

guidance

i.TOP

AND WITH ALL THAT,
YOU STILL HAVE 2500L !
