

CURRENT POSITION	Since 5 years I have been working as a financial investigator for the Financial Advanced Cyber Team of the FIOD , the criminal investigation unit of the Dutch Tax Authorities. In this role I do research together with the team into the newest developments and phenomena in cybercrime and we conduct criminal investigations.
EXPERTISE	<p>Our multidisciplinary team conducts criminal investigations with an advanced cyber component and high impact. I bring my extensive financial knowledge to the team focussing on financial analysis, calculations of illegally obtained profits, confiscation and forfeiture proceedings. I have extensive experience in cryptoanalysis and tracing with a preference for the Ethereum based blockchains. Within the team I am the interrogation specialist.</p> <p>As a secondary task, I give presentations for knowledge sharing purposes within and outside of our organisation about new phenomena in cyberspace, recognising crypto traces, combatting cybercrime and money laundering. I am a guest lecturer for criminology students at the University in Amsterdam.</p>
PREVIOUS WORK EXPERIENCE	Over 20 years of experience as a financial consultant, business controller and finance manager in innovative dynamic rapidly changing environments in the Telecom and ICT industry.
EDUCATION	Bachelor in Business Economics and Master in Financial Controlling
