Le Secret Naturel

Creator and manufacturer of organic cosmetics

Since 2002

Professional catalogue

Made in France, Provence

Start the journey in search of extraordinary ingredients...

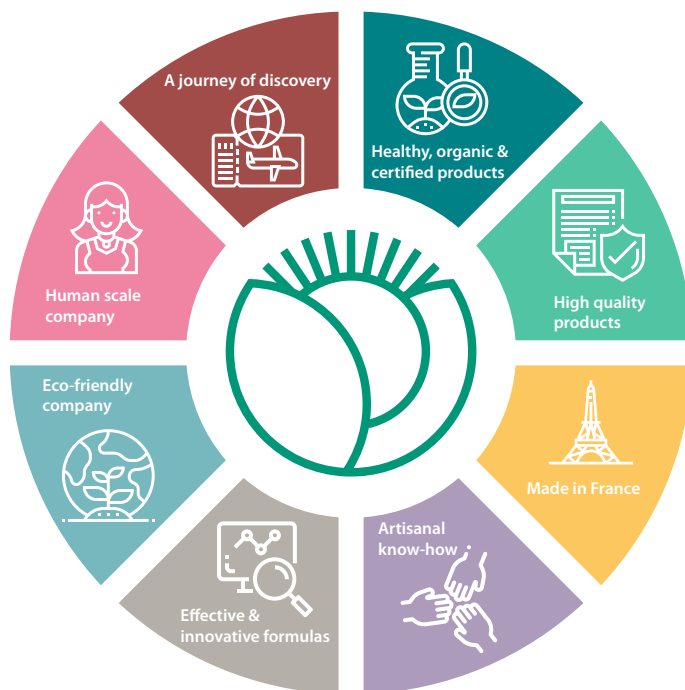

ABOUT US

The company, located in Provence, was founded in 2002 by André Arnaud, president of Le Secret Naturel, a graduate in economy, law, banking and financial techniques and Janine Blanchard, a Food Engineer, graduated in Botanic, Herbology and Aromatherapy. With these complementary skills Le Secret Naturel specialized its activity in the creation and manufacturing of atypical cosmetics and personal hygiene products for the whole family.

Le Secret Naturel has its own R&D /Quality Laboratory, a workshop for the production and a storage warehouse expanded on 1700m2.

YOUR 8 GOOD REASONS TO CHOOSE LE SECRET NATUREL

1

FOR HEALTHY, ORGANIC & CERTIFIED PRODUCTS

Creator and manufacturer of organic cosmetics since 2002, Le Secret Naturel supports you in your daily life and your search for high quality products. Our goal: to always offer you innovative and unique organic products, without compromise between efficiency, pleasure, safety and quality. All our products contain a high percentage of organic ingredients and we push more and more the research to the next level in order to offer you the best of nature. For this purpose, Le Secret Naturel has a Research and Development/Quality laboratory, a manufacturing workshop and a storage warehouse, all on 1700 m².

Our organic products are Ecocert certified and labeled by Cosmebio, which means that our favorite ingredients are of natural origin and that we guarantee full traceability of them. The Cosmebio standards require compliance with strict specifications for products, the environment and people. Our products certified organic by Ecocert are constantly controlled and must contain at least 95% natural and organically grown ingredients. Since 2002 we have been recognized for our fair-trade activity on shea butter. Several products are certified Fair For Life (FFL).

And because your health is one of our main concerns, we follow a precautionary principle and do not use in our formulas controversial ingredients, which are nevertheless authorized in organic cosmetics.

2

HIGH QUALITY PRODUCTS

Our ingredients and skin care products are subjected to quality and safety tests during different stages of their production to give your skin the best results. We carry out skin and eye tests as well as challenge tests for our emulsions in order to control the quality of our products. Internal tests are also carried out to check the microbiological cleanliness of the production.

3

MADE IN FRANCE

Le Secret Naturel was born in Provence 17 years ago, in the heart of a sunny region, renowned for the quality of its local products. Today, the vast majority of our products are still manufactured in our Provençal laboratory, thanks to local know-how, to guarantee the best quality. We try to transmit the benefits of nature through our cosmetic products while preserving it as much as possible, thanks to recyclable packaging, environmentally friendly manufacturing process and fair trade ingredients. Since 2002, Le Secret Naturel has been passionately creating organic products inspired by a trip around the world. These products made in Provence bring originality and diversity to the cosmetics market.

4

AN ARTISANAL KNOW-HOW

Since 2002, the majority of our products have been manufactured here in Provence in our laboratory, thanks to our artisanal know-how. All the organic cosmetics products that come out of our Provençal workshop are handcrafted with the best natural or certified organic ingredients, by a team of passionate and qualified people. The packaging and pre-packaging of orders is subject to rigorous control for the satisfaction of our customers. Our artisanal know-how allows us to respect the ingredients in order to combine the quality of the product with its natural benefits

5

EFFECTIVE AND INNOVATIVE KNOW HOW

Our formulas are developed from vegetable oils and organic essential oils to ensure the quality and effectiveness of our products. Like our oils, all our raw materials are of exceptional quality. They are carefully selected in order to see the best results for our product lines. We work with our suppliers to test more and more innovative and new formulas, to expand our ranges and guarantee the quality and compatibility of the products with your skin. Your skin is protected by a hydrolipidic film consisting essentially of water and lipids. Therefore, cosmetics are generally composed of an emulsion, it means a mixture of the aqueous and fatty phases, to be as close as possible to the natural composition of your skin. Our products are designed to be part of a beauty routine and provide your skin with everything it needs on a daily basis.

6

AN ECO-FRIENDLY COMPANY

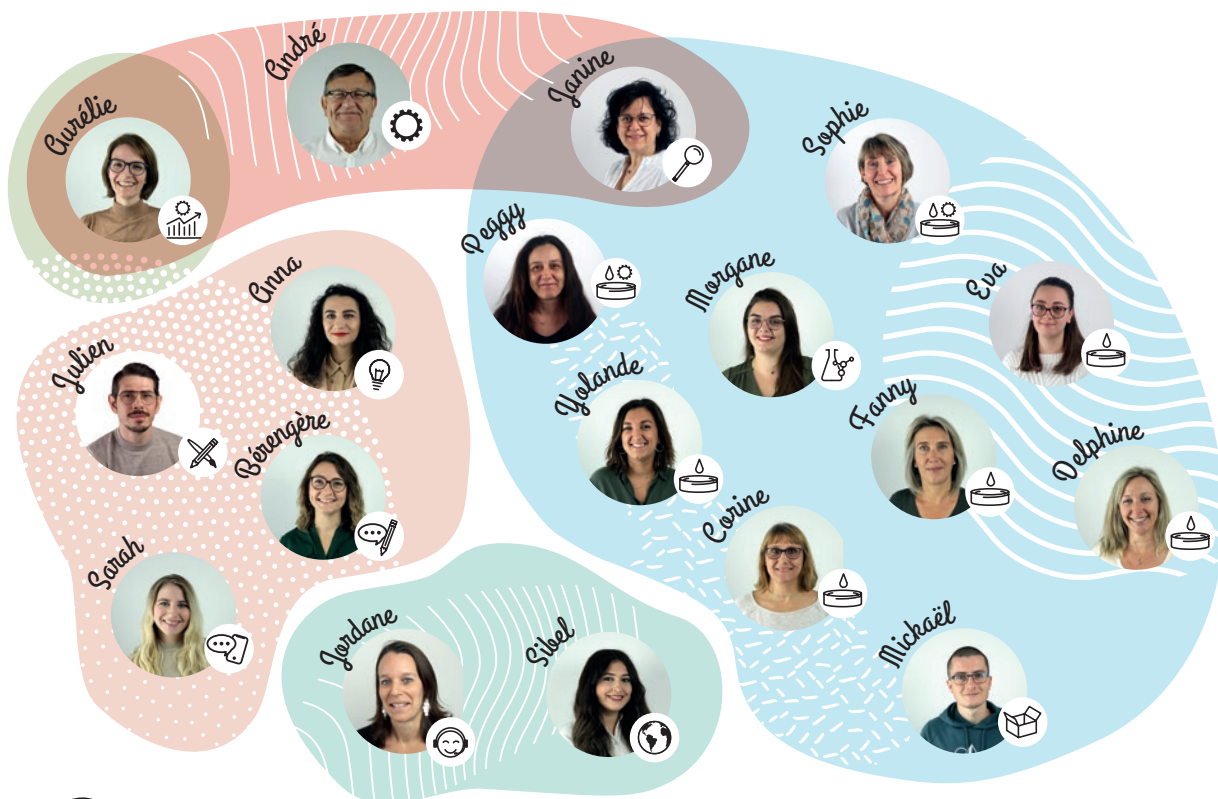

Since its creation in 2002, Le Secret Naturel has made the choice to be environmentally friendly by starting with the selection of its natural ingredients and the handmade manufacture of its products. The packaging of our products is also integrated into our environmental approach and we have designed them with the same rigor and requirements as our formulas. We promote the use of recyclable materials: aluminum, PE, PET and PP plastics, as well as cardboard and paper. For example, our aluminum pots are reusable and recyclable. The mechanisms of our cornstarch lip sticks are Biodegradable and compostable. Today, we are even working on recycled and recyclable containers for our future products. Our production workshop sorts the waste in order to optimize the recycling and reuse of materials. We limit the use of packaging, in particular through large-capacity packaging such as our 500 ml or 1 l liquid soaps, as well as packs of 3 solid soaps. We eliminate all unnecessary overwrapping and reduce the empty space in our cases to a minimum.

7

A HUMAN SCALE COMPANY

Le Secret Naturel is a craft company on a human scale. 20 women and men work every day to offer you superior quality organic products. On the one hand, our company allows us to be close to our customers by offering a responsive service focused on their needs, and on the other hand, it allows us to have significant freedom of initiative, collaborative management and well-being at work.

8

A JOURNEY OF DISCOVERY

Gustave Nadaud said: "To stay is to exist, but to travel, is to live." Our company's journey began in Provence. We discovered the benefits of apricot and olive oil, lavender and rosemary essential oils.

The second trip was to the heart of Africa, more precisely to Ghana, where our shea butter range was born. This "White Gold", which has always been used, has excellent skin and health benefits. We went to India where we created our Ayurvedic range. Inspired by Indian medicine known as Ayurveda, we offer a range of wellness products made from essential oils and specially selected plant extracts for their physical and emotional benefits. After India, we went to South America looking for new ingredients such as hibiscus oil, mango butter and cocoa butter to share the richness of this continent with you and offer you maximum pleasure.

Are you ready for the next journey?

Our commitments

Our products such as Extra pure shea butter, Shea butter & vanilla and Shea butter & argan lip care are FFL certified. But what does FFL mean? Here are the explanations.

Fair for Life (FFL) is a certification programme for fair trade in agriculture, manufacturing and trade. Members of FFL are companies committed to the environment.

The guarantee of quality

Fair for Life certification is a complete ethical guarantee (human rights, work conditions, biodiversity, good agricultural practices, governance, etc.).

In addition, Fair for Life ensures that producers involved in supply chain receive a fair price, see their production tools improve, and have the means to carry out collective projects which they decide themselves.

For Life helps to ensure that the company/organization is committed to a real CSR strategy, including its sourcing policy.

Today, Fair for Life brings together a community of more than 700 certified companies and organizations in more than 70 countries. Their commitment in Fair for Life has a direct impact on 235,000 producers and workers and generates nearly €1 billion in certified products sales.

Our vision of the world is the one, where the trade system is a driving force behind positive and sustainable change for people and their environment. This world is possible with the help of ethical, equitable and respectful partnerships only.

OUR BRANDS

AYURVENAT

LES BAUMES DU HIBOU

Oléanat is the historical brand of Le Secret Naturel. Its name refers to the "natural" vegetable "oils" used in the very first formulations.

Ayurvenat is a brand created in 2011 in order to identify a new range of Ayurvedic products inspired by the traditional cares of the Ayurvedic medicine.

Les Baumes du Hibou is a brand created in 2011 in order to identify a range of massage balms to deal with little aches and pains of daily life.

Our innovations in 2023

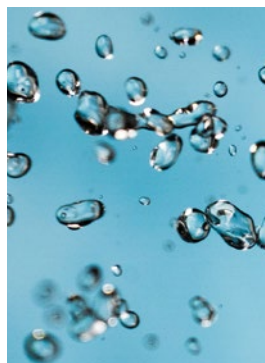

Two-phase hair cares

Why the 2-phase texture?

Our 2-phase hair sprays are made up of two distinct phases : an aqueous phase and an oil phase which are mixed just before application by shaking the bottle.

2-phase sprays are a practical and effective option for hydrating, nourishing and detangling the hair, while offering easy application and even distribution.

The aqueous phase facilitates the uniform distribution of the product on the hair.

The oily phase helps to deeply moisturize and nourish the hair.

GESTURE

RESTORE SUPPLEN-
SAND VITALITY

LEAVE-IN
HAIR CARE

PROTECTS
YOUR HAIR

FOR NORMAL TO
DRY HAIR

FACILITATES
DETANGLING
AND HAIRSTYLING

Benefits

LIGHTER AND EASIER TO APPLY

NO GREASY OR STICKY RESIDUE ON THE HAIR

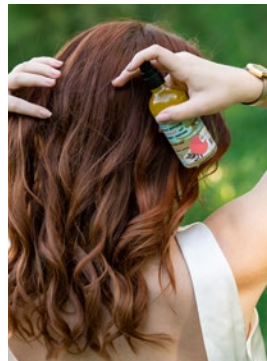

FINER AND MORE PRECISE DISTRIBUTION OF THE HAIR CARE

BETTER ABSORPTION BY THE HAIR

ON DAMP HAIR

After your capillary routine, spray our 2-phase hair care 3-4 times on clean hair to hydrate, perfume and sublimate it.

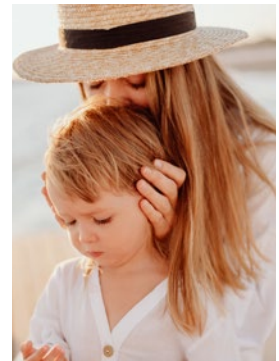

ON DRY HAIR

After your capillary routine, spray our 2-phase hair care 3-4 times on clean hair to hydrate, perfume and sublimate it.

IDEAL FOR SUMMER

Water, sun and wind can make hair brittle and dry. Use our 2-phase spray in your capillary routine to protect, nourish and revitalize your hair in the summer.

FROM 3 YEARS

Use our leave-in hair care to nourish, detangle and style your children's hair. Without essential oils, this plant-based spray can be used in winter as in summer.

Scents of Provence

« The gladdest moments in human life, methinks, is the departure upon a distant journey into unknown lands »

Kiwi oil

Extremely rich in omega 3, phytosterols and antioxidants, Kiwi oil provides regeneration and vitality to mature and tired skin. Result? The skin is soothed, repaired and the grain is unified!

Strawberry oil

Strawberry seed oil contains more than 70% fatty acids and is ultra-hydrating. It is a nourishing and invigorating oil that is suitable for all skins, especially mature skin.

Olive oil

Olive oil, rich in oleic acid, has moisturizing, nourishing, toning and revitalizing functions for the skin. It suits particularly well to sensitive and dry skin.

Sweet almond oil

Sweet almond oil, regenerating and restorative, improves the elasticity of the skin. Rich in omega 9, it is an excellent treatment for the sensitive skin of babies, children and adults. It soothes and nourishes the epidermis.

Apricot kernel oil

Apricot kernel oil is a revitalizing, regenerating and protective oil. In addition to being nourishing, apricot oil gives your skin a nice tan glow.

Calendula oil

The protective and softening Calendula oil suits well to very sensitive skin of young children. It actively repairs damaged skin.

Gentle cares with donkey milk

« Stay is to exist, but to travel, is to live »
Gustave Nadaud

GENTLE CARES WITH DONKEY MILK

Softness and regeneration

ORGANIC DONKEY MILK

The production of organic donkey milk is rare in Europe. Asin breeding requires a meticulous and constraining know-how. Our partners guarantee the best breeding practices that ensure the well-being of the animals. Organic donkey milk has extraordinary virtues: it contains a combination of vitamins (A, B1, B2, B6, D, C, E), minerals, oligo-elements, essential fatty acids such as Omega-3 and Omega-6. These elements are of remarkable interest in cosmetics. As a regenerator, it prevents aging of the skin and promotes skin regeneration.

DERMATOLOGICAL VIRTUES

Donkey's milk is rich in essential fatty acids and tonic active ingredients, making it an effective cosmetic ingredient. Donkey's milk soothes sensitive skin. It is known for its properties that help to fight against skin problems such as psoriasis and eczema. Its softness calms the most reactive skins that tend to blush.

ORGANIC DONKEY MILK BALM

Regenerating

Gentle and nourishing balm with a hypoallergenic fragrance for sensitive and reactive skin. It is recommended to prevent skin dryness, the actions of time on the skin and to protect and repair the skin of children and adults.

Moisturizes, nourishes and regenerates the skin. Facial care.

My hair routine

I wash my hair with my favourite shampoo.

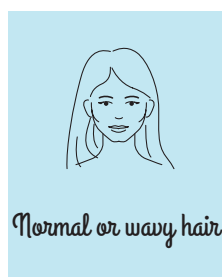

I apply the **Intensive repairing mask** on the wet hair.

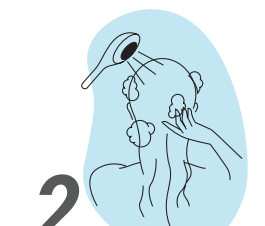

I let my hair dry without rinsing.

If needed, I hydrate my hair ends with the **Precious repairing oil**.

I apply the **Intensive repairing mask** on the hair to the ends et leave for 20 minutes.

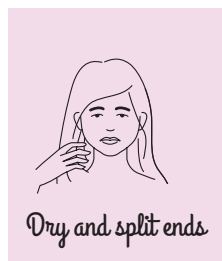

I wash my hair with my favorite shampoo.

I dry my hair.

I use the **Precious repairing oil** on my hair ends.

I wash my hair with my favorite shampoo.

I apply the **Intensive repairing mask** on the splitted ends still wet and leave for up to 5 minutes.

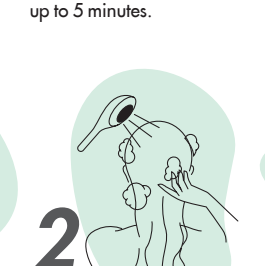

I rinse my hair with lukewarm or cold water.

If needed, I apply the **Precious repairing oil** on the ends to hydrate and nourish them.

I apply the **Organic pre-shampoo care** on my scalp, massage softly and leave for 10-15 minutes.

I wash my hair with my favorite shampoo.

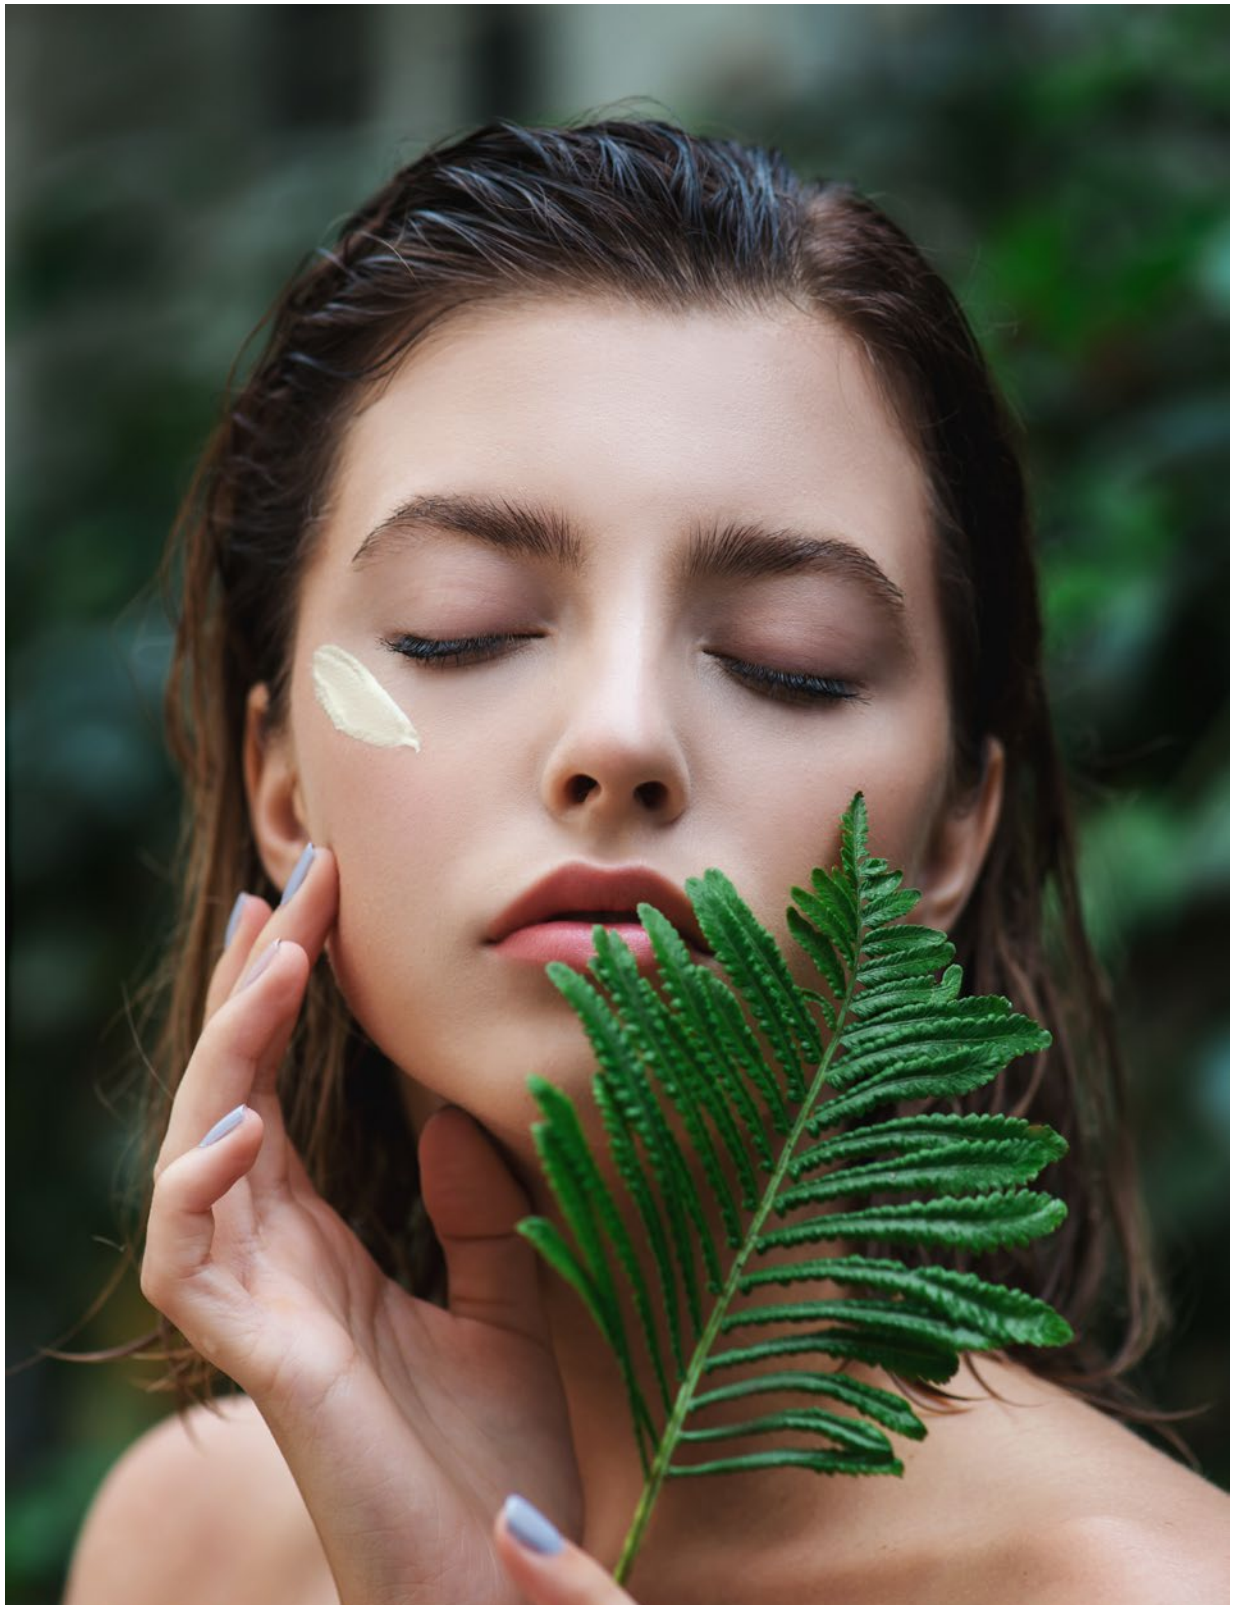

I rinse with lukewarm or cold water.

If needed I use the **Precious repairing oil** on my hair ends.

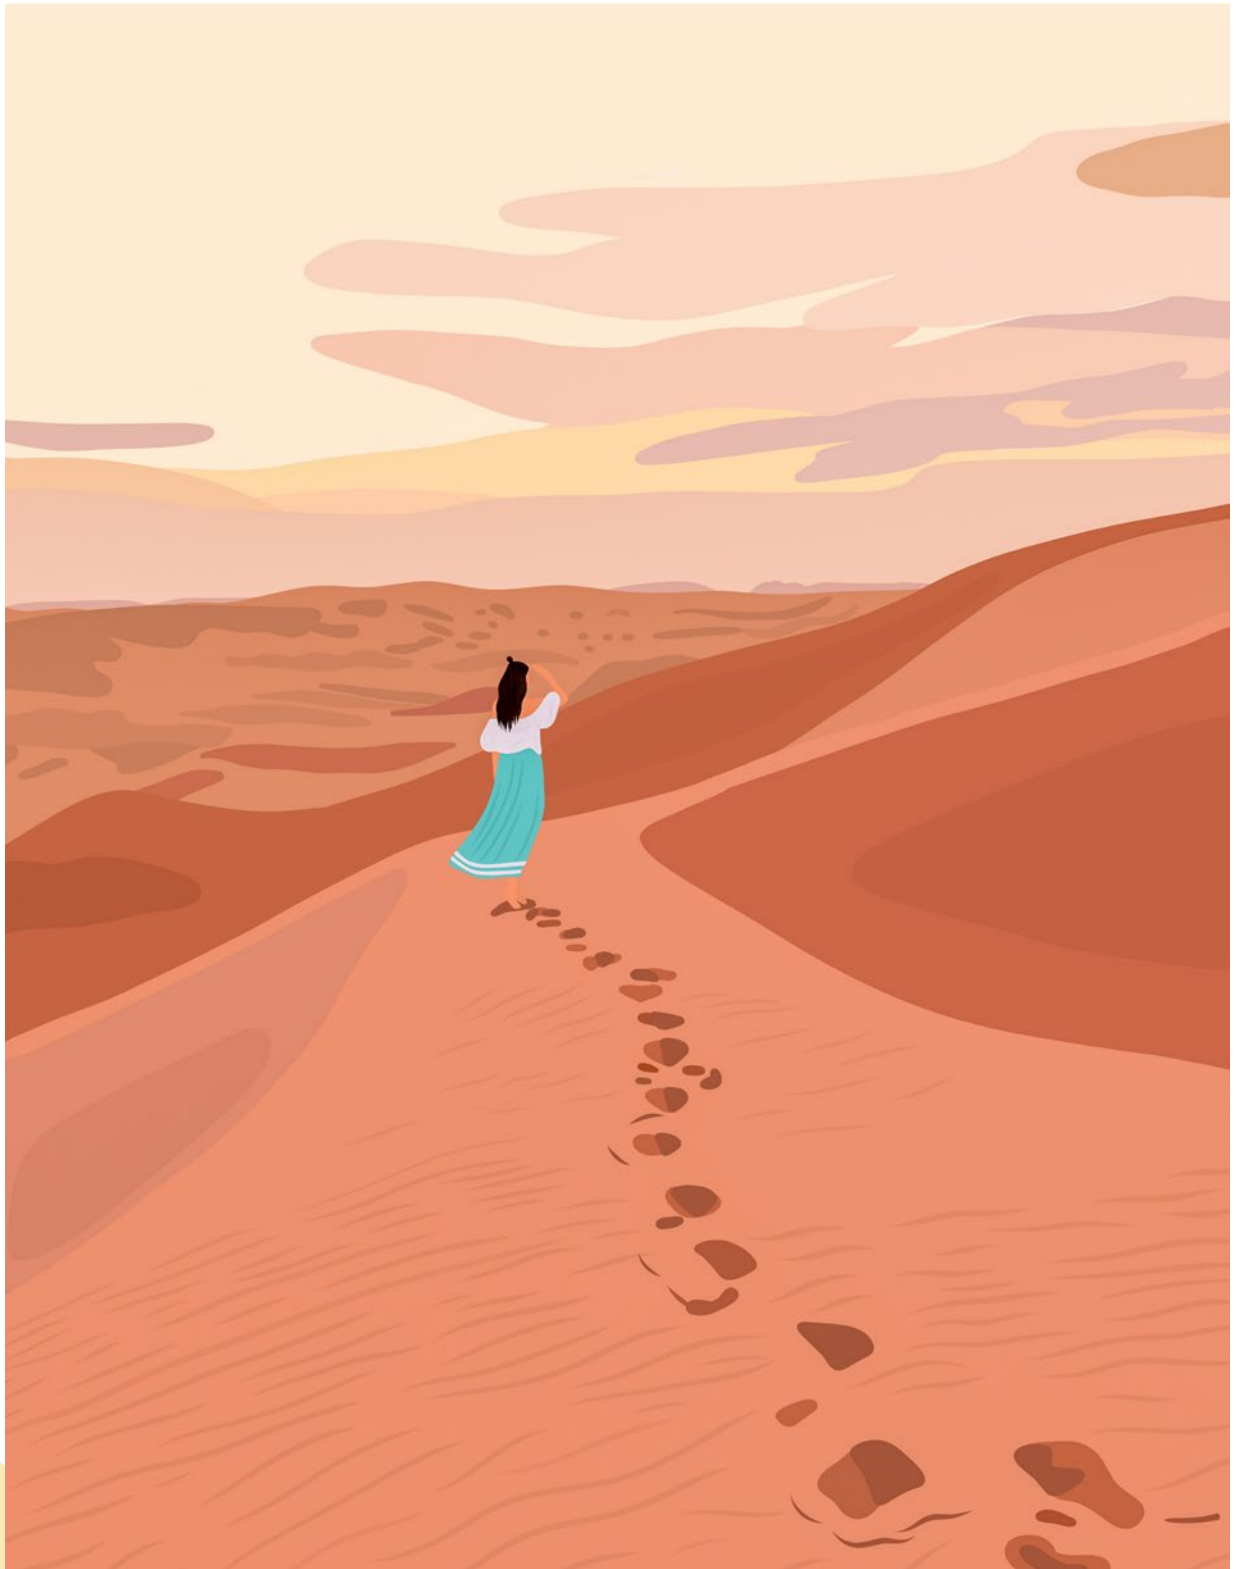

Our **Precious repairing oil** can be used before shampoo to energize, nourish and shine your hair. For more effect, cover your head with a towel or bath cap and leave it for 20 minutes and then wash it. Your hair will be grateful for your care!

BEARD OIL WITH ORGANIC NIGELLA

Nourishes and softens

Enriched with organic Nigella, Castor, Jojoba and Bay Laurel oils, this 100% natural beard oil moisturizes, nourishes and cares for your beard or mustache. It has a double action: it purifies the skin and instantly nourishes the beard without the sticky feeling. All skin types.

- Nigella oil: moisturizes and strengthens dry and brittle hair.
- Castor oil: strengthens your beard and accelerates its growth.
- Jojoba oil: is used to prevent dehydration and makes your complexion more radiant
- Bay Laurel oil: purifies and soothes irritated and damaged scalps.

Use : Place a few drops of beard oil between your hands and apply to your beard, massaging deeply.

ORGANIC NIGELLA OIL AND ITS DIAMOND INCENSE

Purifies and revitalizes

Extracted by cold pressing, this 100% vegetable oil helps to purify the skin and revitalize the scalp. This purifying effect is optimized by the presence of incense, a precious and natural resin, extracted from trees of the Boswellia species.

Face: purifies, hydrates, helps to delay skin aging. Sublimes all skin types, especially problem skin.

Use: apply in light massages 1 or 2 times a day.

Hair: nourishes & strengthens the scalp. Known to soothe itching. All hair types.

Use: apply in light massages. To let do. Wash thoroughly.

Black seed oil

Nigella, also called black cumin, has been used for nearly 2,000 years as a spice and natural remedy in the Orient. It has a purifying effect for problem skin, calming and regenerating effects to soothe irritations such as chapped skin and razor burn... Black seed oil is recommended for mature skin thanks to its richness in antioxidants that are valuable allies in the fight against the signs of skin aging.

Incense

Incense is a precious and natural resin used since the dawn of time to perfume oneself or accompany religious rites. It was also one of the gifts of the Magi along with gold and myrrh and it was one of the ingredients of the sacred perfume. It brings well-being and inner peace.

MY COMPLETE DAILY ROUTINE

Face and hair

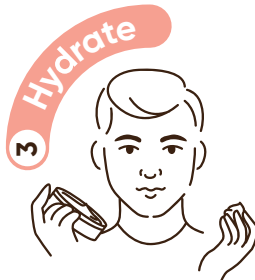

Aleppo soap

Start your morning routine by having a shower, because under the action of water vapour, the hair becomes soft. Clean and purify your skin with our Aleppo soap.

Aleppo soap

Work your Aleppo soap into a lather and spread it on your face by circular movements. Shave in the same direction that your hair is growing.

Body care with organic camel milk

To finalize your morning routine, melt a dab of balm in the palm of your hand and apply on your face in circular massages to regenerate and hydrate your skin gently.

Organic nigella oil and its diamond incense

In the evening, the best way to apply it is by first warming a few drops of oil between your hands before gently pressing it onto your face to purify your skin, then do the same to your hair to strengthen it and promote regrowth.

MY COMPLETE EVENING ROUTINE

Face, beard and hair

your beard

Aleppo soap

Start your morning routine by having a shower, because under the action of water vapour, the hair becomes soft. Clean your beard and purify your skin with our Aleppo soap.

your beard

Beard oil with organic Nigella

Then heat the oil in the palm of your hand and apply to the beard from top to bottom, insisting on your beard's ends. Massage gently to penetrate the skin with light movements. Finalize your beard shaping by using your fingers or a beard brush.

your hair

Organic nigella oil and its diamond incense

Continue your routine using our 100 % vegetable oil. This oil nourishes, strengthens and improves the quality of hair regrowth. Apply in light massages. Leave on for as long as possible. Wash thoroughly.

your body

Body care with organic camel milk

Finalize your ritual with our body care with camel milk which has a high content in minerals and in vitamin C. In synergy with the shea butter, rich in moisturizing active ingredients that protect your skin, this balm is ideal for daily care for your body.

The scented gardens of Polynesia

« We travel to change, not of place, but of ideas »
Hippolyte Taine

The scented gardens of Polynesia

The history of its creation

We had the will to re-enchant the world, to create unique and gentle products, to access the world of dreams and travel...

Since ancient times, people have used plants and natural ingredients such as flowers and aromatic plants to compose their fragrances. Today we are back to basics: we have created natural, solid, alcohol free and precious perfumes that will take you to other horizons.

Let seduce yourself with this light and practical format and succumb to the originality of natural and mesmerizing fragrances. Each perfume is created with a very well-built olfactory pyramid to offer an incredible gentleness to your skin and to your mind. During the day, use it wherever you want, when you desire to escape the reality. During the night, perfume your dreams to travel in time and space.

Use: our solid perfume melts delicately on your skin by adding the subtlety of its olfactory notes.

« A woman should wear perfume wherever she wants to be kissed » - Coco Chanel said. You can apply our solid perfume on your pulse points: behind your ears, inside of wrists, your neck or décolleté...

N°1 FRUIT D'AMOUR

SOLID PERFUME

Sublimate your days with an active and beneficial gesture for your body and mind with the fruity notes of Green Tangerine, Wild Cherry, energized with subtle spicy and sparkling chords. Fill yourself with positive energy, sunshine and sensuality.

More than a perfume

A perfume that takes care of your skin

Our perfume was created with quality raw materials such as shea butter, cocoa butter and vegetable waxes. To go further, we added an extract of sunflower flowers which is a highly moisturizing active. Perfume and moisturize your skin in a one gesture.

Practical packaging

Say "au revoir" to ordinary perfumes and "bonjour" to the practical ones!

This stick will easily slip into your handbag to follow your daily adventures. You can use it whenever you want to perfume your wrists and neck with delicious and gourmet scents.

In the office, in the restaurant, in the gym... Keep your favorite perfume on hand all the day.

Perfect for traveling

With our solid perfumes, travel light and with elegance!

These are little gems to take with you in your cabin baggage for a scented touch-up anytime on vacation, on a business trip or on a romantic date at the end of the world.

AYURVEDIC CARES FROM INDIA

The benefits of plants

What is Ayurveda ?

Ayurveda is a traditional and millennial medicine of India practiced in many parts of the World. Ayurveda attracts more and more westerners where it is considered as an unconventional medicine. Ayurvedic medicine draws its origins from the Veda, a set of sacred texts from ancient India. It is a holistic medical approach dating from Vedic civilization and still in force today. In India, since November 2014, it has been promoted by the Ministry of Yoga founded by Prime Minister Narendra Modi.

The World Health Organization has recognized it since 1982 as a traditional medicine. The concept is based on the preservation of physical, mental and emotional balance.

ORGANIC ABHYANGA MASSAGE BALM

Energizing & toning care with 18 active plants

Temporary fatigue, a lack of body tone, a slow mind. . . STOP! Take twenty minutes of your time and keep it to yourself. ORGANIC MISWAK TOOTHPASTE

Natural oral hygiene

Miswak or Meeswak is a small tree with succulent leaves and small yellow and red flowers. Miswak extract is very beneficial for strengthening the gums. In Asia, the root is used directly as a toothbrush but the presence of tannins causes a red coloration of the mouth.

To avoid this inconvenience and use the benefits of the plant, Ayurvenat toothpaste has been formulated by integrating Miswak extract. This oral care offers all the properties of a plant widely used in Ayurvedic tradition on a daily basis. When used regularly, Miswak root and sticks help prevent tooth decay and improve breath.

Calophylle oil

Calophylle vegetable oil is known for its many properties, rare for a vegetable oil : anti-inflammatory, healing, anti-infectious, analgesic, stimulating blood circulation. This is why it is used in many skin problems, skin infections and muscle aches..

The Miswak

Already in Antiquity one begins to practice oral hygiene using fibrous sticks to chew, like the Siwak or Miswak, used as a toothbrush. The stick contains disinfectants and fluorides. It is recommended in the collection of medical knowledge of the surgeon Sushruta in ancient India (ca. 500 b.c.). Simply rub your teeth with a fibrous object such as the Siwak to get rid of the dental Plaque.

Sesame oil

Sesame oil is an excellent oil for maintaining a tonic epidermis! It combines the relipidant qualities of Omega-6 with the antioxydant properties due to the presence of sesame-specific molecules : sesamin and sesamol. This beneficial action for the skin is reinforced by the presence of skin regenerating selenium.

Sacred Basil oil

Also called Tulsi Basil, sacred basil oil is known and used in India for over 5000 years. Symbol of protection and strength, it is recognized as a sacred plant and honoured in Ayurvedic medicine. The essential oil produced from the steam distillation of the flowers and the plant is a powerful antioxidant, excellent anti-ageing active. Its purifying and sebum-regulating effect is suitable for problem skin and it is used in cosmetic as an anti-ageing treatment for mature, tired and wrinkled skin. It moisturizes and tones the skin.

The virtues of essential oils and vegetable oils

- Essential oils of Camphor, Fir Balsam and Rosemary have a stimulating effect on the blood circulation thus activating the preparation and recovery of the muscle.
- Juniper berry oil and Mandarin oil are present to soothe the pain.
- Essential oils of Lavender, Patchouli or Petitgrain have a reassuring and calming effect.
- The macerates of St. John's Wort and Calendula bring regenerative and soothing power even on sensitive skin.
- Calophyllum oil has anti-inflammatory properties that will quickly calm the irritation
- Arnica helps absorb the blows and has a decongestant effect.
- The essential oil of Palmarosa and Rosemary are stimulating.
- Tea tree provides an anti-bacterial action.

Essential oils contain very powerful concentrations of active ingredients. Their use on children under 7 years of age and pregnant women is not recommended without medical advice.

GENERAL SALES TERMS AND CONDITIONS

ARTICLE 1: OBJECT AND SCOPE

Any order of products sold by Le Secret NATURAL SAS implies the unreserved acceptance by the buyer and his full agreement to these general conditions of sales which prevail over any other document of the buyer, including all terms and conditions of purchase of our customers. These general conditions of sale apply to all sales of products by our company. As a result, the placing of an order by a customer implies unreserved acceptance of the latter, to the general conditions of sales.

Any other document than the general terms of sales, including catalogs, leaflets, ads, notices, has only an informative and indicative value, not contractual.

ARTICLE 2: ORDERS

Definition: "order" means any order relating to the products sold by Le Secret NATURAL SAS, along with the possible down payment on the purchase order. All our products are sold in complete boxes. We do not manage the backorders. Change: orders transmitted to our company are irrevocable for the customer, unless our written acceptance. Any request for modification of the composition or volume of an order placed by a customer, will not be taken into account by our company, unless otherwise agreed in writing and after validation of our company.

ARTICLE 3: DELIVERIES

Leadtimes: any order placed with our company will be confirmed by an order confirmation of our society. Deadlines on our order confirmation bind our company, only in the absence of a force majeure or a fortuitous event (see Art. 6 of the present general conditions of sales). Delivery delays are attributable to the carrier.

Any delay compared to the initially planned indicative delivery times, cannot justify an order cancellation placed by the customer and recorded by our company.

Transportation: goods sold travel to the recipient's risks, who will have to make, if necessary, all reserves and claims to the carrier. Our customers have to carry out, upon receipt, the verification of the delivered goods and the perfect condition of the packaging.

Without prejudice to the arrangements to be made by the customer with regard to the carrier, in case of defects or missing, any claim, regardless of nature, on the delivered products, must be made within the period of one day from the day of reception of the goods. The complaint will have to be confirmed in writing, including fax or electronic mail.

No return of goods can be made by the customer without the prior express, written agreement of our society, including by fax or e-mail. Return costs will be the responsibility of our society only under the previous conditions. Only the carrier chosen by our company is authorized to carry out the return of products concerned. The complaint made by the client under the conditions and according to the conditions described in this article, does not suspend the payment by the customer of the goods concerned.

Suspension of deliveries – Refusal of order: in case of no payment of an invoice at the due date, after ineffective notice within 48 hours, our company reserves the right to suspend any ongoing and/or future delivery and to refuse to take into account any new order

ARTICLE 4: PRICE

Our prices are always given tax-free, ex-factory (Ex-Works). Our prices are mentioned in Euros. Our prices are set by our company and based on our current price list on the day of placing the order. Billing is made on the day of availability of the goods. The date of rate change being reported in advance, orders reaching us after this date will be invoiced according to the current price list.

We strive to keep our prices for a year, but some changes affecting the cost of raw materials or foreign currencies can force us to change our prices without notice. To the extent possible, we inform you by sending of an additive price list.

ARTICLE 5: TERMS OF PAYMENT

Payment: our invoices are payable according to the specific payment conditions agreed between the parties from the order. The due date is mentioned on the invoice. There will be no discount for prepayment. A claim or a difference of amount due can result into a credit note or a partial payment in accordance with our accounting department. Payment default: any unpaid amount at due date will result in payment by the customer of penalties set at one and a half the legal rate of interest. In application of article L.441-6 of the French commercial code, these penalties are fully payable, upon receipt of the notice informing the customer that we have registered this amount to its debit account. Property of the goods: according to the French law Nr. 80335 of 12th May 1980, the goods shall remain our property until fully paid.

ARTICLE 6: FORCE MAJEURE

Are considered as cases of force majeure or fortuitous, events independent of the will of the parties, that they couldn't reasonably foresee, avoid or overcome, insofar as their occurrence makes it impossible the performance of the obligations.

Are considered similar to cases of force majeure or fortuitous, discharging our company from its obligation to deliver as initially scheduled or to deliver the planned quantities: climate events, strikes, fire, flood, production stops due to fortuitous breakdowns, shortage in packaging supply, epidemics, barriers of thaw, the roadblocks, the supply disruption of EDF-GDF (French companies for Gas & Electricity), or supply disruption for a reason not attributable to our company, as well as any other cause of supply disruption attributable to our suppliers. In such circumstances, our society will notify the customer, in writing, including by fax or electronic mail, within 24 hours of the date of the occurrence of these events. If the event were to last, the order will be fully cancelled, without that neither party can claim for damages.

ARTICLE 7: APPLICABLE LAW – ASSIGNED JURISDICTION

ARTICLE 7: APPLICABLE LAW – ASSIGNED JURISDICTION

Any question relating to these general condition of sale and to the sales that they govern, that would not be addressed by these contractual stipulations, will be governed by French law, exclusive of any other right.

Any dispute about the application of these general conditions of sale and their interpretation, their execution and about sales contracts concluded by our company, or relating to the payment of the price, will be brought before the Commercial Court of Paris, regardless of the place of the ordering, delivery and the method of payment and even in the case of call in warranty or plurality of defendants..

ARTICLE 8 : RETURN OF GOODS

The sold goods will not be exchanged or taken back, unless they present quality issues.
