# Fourmi what is it ?

---

## MADE IN FRANCE

I suggest you print the photo | artwork | picture of your choice on the entire product or in a pattern.

It is possible to make small series in order to offer a wide choice of different illustrations for your temporary or permanent exhibitions.

Create your own collections, made in France, for unique products in your shop.

# Why Fourmi ?

## **FOURMI IN FRENCH MEANS “ANT”**

The “Ant work” is meticulous work.

The ant symbolizes hard work, patience, power and cooperative effort, which is why I surround myself with Parisian workshops to offer you the best result.

## **CAMILLE BIZIEN**

Trained as a textile designer, I specialized in production monitoring, with more than 10 years' experience in fashion accessory companies in Paris, notably at "Les Cakes de Bertrand" and "Royal Tapisserie".

Creation and production follow-up hold no secrets for me and it is this expertise that I put at your disposal for your personalized collections.

# Manufacturing delays
