Phil the bottle

—Tap water is cool!

Phil the bottle is the City Bottle that chooses free water, offered by the drinking fountains to be found in cities, in parks and gardens, in squares and along the streets.

Each Phil the bottle is dedicated to a specific city; Using Phil the bottle is not only a responsible choice, because water is the contemporary gold and environmental pollution must be reduced. It is also an invitation to become modern water finders who, while searching for water, will find new and unknown city locations, learn new itineraries and discover new perspectives.

Palomar is a design company founded in Florence, Italy in 2001.

The products we design and manufacture — a collection of nomadic objects — are radically innovative for the new meanings they aspire to bring to our everyday life and experience.

Through a research that can be described as “post-digital”, **every project designed by Palomar represents a sort of countermelody to the overwhelming digital technology mainstream**; a way of saying that new physical and analogic objects can coexist with the digital technology and its presumed imperatives, enriching our experience with a more human, more ironic and more attractive dimension.

THANK YOU!
