TOGETHER FOR A CLEAN OCEAN

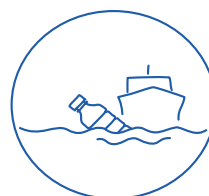

SEAQUAL INITIATIVE

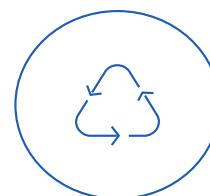

SEAQUAL INITIATIVE works with ocean clean-up programs to remove marine litter.

Marine litter is sorted into different material types by SEAQUAL INITIATIVE partners.

SEAQUAL INITIATIVE partners wash and prepare each material.

Marine litter is transformed into Upcycled Marine Plastic by SEAQUAL INITIATIVE partners.

SEAQUAL® YARN is produced in Spain.

The land-sourced post-consumer plastic used to make SEAQUAL® YARN is obtained exclusively from Europe, and it is all GRS certified.

As for marine litter, it has been collected from Europe, the Mediterranean and the Black Sea.

We operate a Chain of Custody (CoC) from origin to yarn manufacture, and we operate a license system throughout the supply chain from yarn manufacturer to brand or retailer.

The fabrics are produced in Portugal or Germany, then all other steps, including printing, cutting, manufacturing, handles and accessories are made in Portugal.

Enhance colors all over the product

Ergo pillow aims to increase your well-being.

The Ergonomic Pillow

Hang-Tag inclus

Its Energex HD foam and its unique shape are designed to relieve joints and stress points in the body.

It can be used in different contexts, at home, during a trip, at the beach, in your hammock, on a picnic, at Yoga or even at work.

In a car, or at the office, the ergonomic pillow can be placed in the back of the seat to relieve lumbar and back pain.

In bed, it relieves cervical and back muscle tension during sleep.

Ergo pillow is positioned under the neck, offers perfect alignment of the spine, will make your naps, moments of relaxation and your sleep much more comfortable.

With its size of 19*29*6 cm it fits in your handbag, tote bag and other luggage to always have handy !
