RELIABLE PRODUCTS FOR HOSPITALS AND CLINICAL LABORATORIES.

INTRODUCTION

Quality Solutions for all Diagnostic Testing Needs.

For more than 30 years, MP Diagnostics, a division of MP Biomedicals, has been committed to providing superior products, quality, and service at a competitive price. All MP Diagnostics products are produced under the strictest international regulatory standards at our worldwide facilities.

We offer the most comprehensive diagnostics portfolio including point-of-care, screening, and confirmatory tests — arming consumers, providers, researchers, health plans and employers with the accurate, reliable information they need to make better healthcare decisions.

Backed by a range of testing methods that aid in the diagnosis, detection, and recovery from diseases. Our comprehensive offering of immunoassays includes rapid tests, Enzyme Immunoassays (EIA/ELISA), Chemiluminescence Immunoassays (ChLIA) and western blots in the following diagnostic areas:

- ▶ **Inflammation**
- ▶ **Cardiac Markers**
- ▶ **Endocrinology**
- ▶ **Metabolism**
- ▶ **Drugs of Abuse**
- ▶ **Infectious Diseases**

We manufacture our products under the strictest international regulatory standards at our facilities around the world, and most of our assays are CE-marked or FDA cleared.

It is our mission to deliver reliable, high-quality assays to ensure accurate results for your lab and provide you with the valuable information you need to make better healthcare decisions. We deliver the tests you need and results you can trust.

We Deliver the Tests you Need and the Results you Can Trust.

MULTISURE® HIV 1/2 CONFIRMATORY TEST

Cat. No. 93030-020

- ▶ Confirm and differentiate HIV-1 and HIV-2.
- ▶ Accurate result.
- ▶ Simple workflow.
- ▶ Flexible: manual or automatic reading of result.
- ▶ Wide temperature storage (2 °C – 30 °C).
- ▶ CE-marked.

POINT-OF-CARE

MPQUANTI® - IMMUNOFLUORESCENCE ANALYZER

The Immunofluorescence Analyzer MPQuanti® is a time-resolved fluorescence immunoassay analyzer which provides rapid and quantitative results by the examination of human samples.

Our quantitative rapid tests are optimized and compatible with multiple sample types, including:

Whole Blood

Plasma

Serum

- ▶ Based on detection of fluorescence emitted during an immunoassay.
- ▶ Read Time < 20 seconds.
- ▶ Data storage: more than 10,000 test records.
- ▶ Built-in printer.
- ▶ CE-marked.

DIAGNOSTIC KIT FOR HBA1C

Cat. No. 07HBA5025

- ▶ For professional *in-vitro* diagnostic use.
- ▶ Working only with MPQuanti® immunofluorescence analyzer.
- ▶ Test results should be interpreted at 10 minutes.
- ▶ CE-marked.

CONFIRMATORY DIAGNOSTICS

AUTOBLOT SYSTEMS

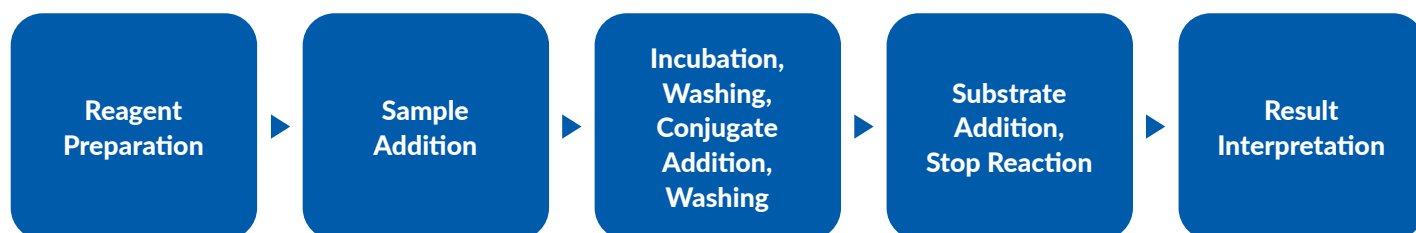

Streamline and enhance your automation workflow with the latest models of AutoBlot System and AutoScan Pro.

The AutoBlot System is an intelligent Western Blot processor that enables automated washing and incubation of up to 48 assay strips per run at your pre-selected temperature. The AutoBlot System helps to satisfy your Immunoblot needs by minimizing human error, increasing productivity, and delivering accurate and consistent results.

- ▶ Available for 36 or 48 samples per run.
- ▶ High-quality of results and repeatability.
- ▶ Save time and effort: automated addition and aspiration of buffers, conjugate and wash reagents.
- ▶ Efficient: reduce workload.
- ▶ Integrative: easy data management.
- ▶ CE-marked.

AUTOSCAN PRO

Cat. No. EMC021

AutoScan PRO is a software which enables an automated analysis and interpretation of Western Blot and Line Immunoblot test results. AutoScan PRO reads the digital image of the strips generated by a validated scanner.

- ▶ Scan of the results by a validated scanner.
- ▶ Read of the digital image.
- ▶ Interpretation based on pre-programmed criteria.
- ▶ Providing an accurate interpretation to the user.
- ▶ CE-marked.

PORTABLE DRUG TESTS READER

For the scan and digitalization of drug test results in saliva and urine samples. Allows a qualitative measurement of drugs in less than 5 seconds.

Cat. No. ADT3000

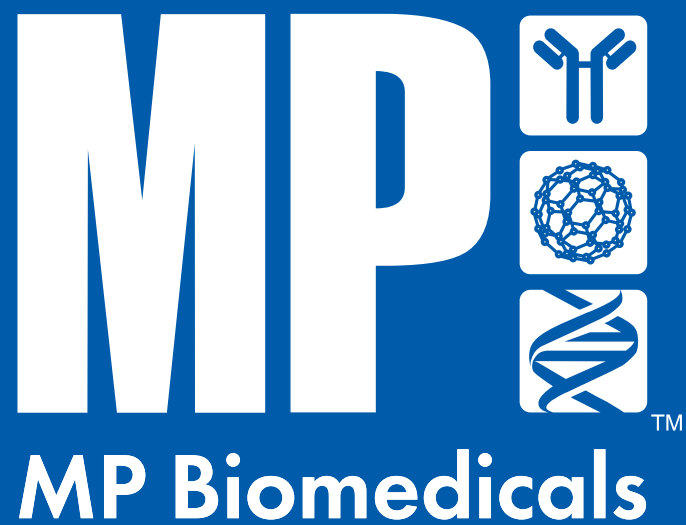

Excellent Performance Characteristics

The Portable Drug Tests Reader offers the advantages of high accuracy, strong stability, and repeatability.

- ▶ All format reader (cup and dip card).
- ▶ Camera based detection.
- ▶ Data storage: 10,000 records.
- ▶ Store test image and results.
- ▶ Built-in printer.
- ▶ Easy-to-use.
- ▶ CE-marked.

We also provide the following adulteration tests:

Creatinine, Nitrite, Glutaraldehyde, pH, Specific Gravity, Bleach, Oxidant, and Pyridinium Chlorochromate.
