

Zero-cost, global consulting and support

DoIT provides the technology and expertise to help you harness Google Cloud and AWS, without the complexities.

The best part? This comes at zero cost to you. Because less time worrying about cloud means more time growing your business.

On-demand Senior Cloud Architects

Tap into decades of earned knowledge and MSP-level experience when you work directly with our certified Senior Cloud Architects.

Unlimited 24/7 support

Enhance your cloud support with DoIT. With an average 98% customer satisfaction rating and < 30 minute first-response time, you'll get the answers you need, when you need them.

Proprietary technology

Simplify and automate the management of your Cloud services and spend with DoIT's purpose-built technology portfolio.

The first (and only) zero-cost Managed Services Provider

With much on offer from Google Cloud and AWS, choosing the right services and technologies can be overwhelming. Through our teach-to-fish approach, DoIT supports you at every step in your cloud journey — from architecture reviews to making sense of spend to continuous optimization.

01 Design and deploy

“Is this the right database for me?”
“Which technologies are most performant and cost-efficient?”

Get tailored recommendations that speak to how your business works and ensure deployments are designed to scale from the start.

02 Understand and operate

Turn your data into a competitive advantage with an analytics architecture that delivers market share-winning insights.

Use proprietary analytics tooling to understand the ins and outs of your cloud spend, and optimize for growth.

03 Optimize and scale

Scale with confidence knowing cost optimization is automated and you're realizing the largest compute savings.

Wave goodbye to bill surprises with proactive monitoring and alerting for cost spikes and security violations.

“With FlexSave by DoIT, we maximize our performance by having the flexibility to switch machines whenever we need, while realizing compute commitments discounts on those machines at the same time!”

Denis Tomasevic
Head of Infrastructure & Security, NiceHash

We make the cloud our business, so you can focus on yours.
