PATREON

"Prior to DataDome, it took a great deal of time, labor, and resources to detect and respond to attacks. DataDome's partnership has strengthened our defenses, allowing the team to tackle other important priorities."

Joshua B., Staff AppSec Engineer, Patreon

Full protection for mobile apps, websites, and APIs:

DataDome provides consistent protection for all your endpoints—login, checkout, etc.—across all devices.

Real-time AI-powered online fraud and bot protection on autopilot:

In real time, DataDome processes 1 trillion data signals per day. Our monitored machine learning (ML) models determine in less than 2 ms whether to grant access.

Powerful threat analytics and notifications:

A user-friendly dashboard provides access to unprecedented insights into each threat, including dedicated KPIs, real-time attack reports, and notifications.

Services, SOC, and support:

DataDome offers a suite of professional services, including streamlined onboarding, 24/7 technical support, and a world-class bot security operations center (SOC).

Enhanced user experience for all endpoints:

With a false positive rate below 0.01%, DataDome protects your business and your user experience (UX).

User-friendly, privacy compliant, and 100% security-focused CAPTCHA:

99.99% of users are protected by DataDome without being challenged. In the rare event that a human gets challenged, DataDome's CAPTCHA protects your UX.

"With DataDome, we benefit from the collective intelligence accumulated on all the sites protected by the technology, and this delivers great value in terms of guaranteed security."

Francis Nappez, CTO, BlaBlaCar

"DataDome has enabled us to make considerable productivity gains ... We have better security AND we have taken back some of our time, and that's huge for us."

Bill Salak, CTO, Brainly

"It was one of those life-changing moments ... The DataDome dashboard came to life, and we could instantly see all the different types of attacks on our sites."

Sayed Gaffar,
Director of E-Commerce, The Topps
