PRODUCT CATALOGUE 2024

Bona[®]

FROM A GROCERY SHOP TO GLOBAL INNOVATOR

Bona began as a small family-owned grocery shop in Sweden and has since embraced innovation and progress, growing into a multinational company with presence in over 90 countries.

Now, over 100 years later, Bona is the foremost leader in the wood floor industry with a wealth of innovation and knowledge all focused on bringing out the beauty in floors.

SUSTAINABILITY

We believe that it's our responsibility to do better, and be better in everything we do. Sustainability is core to our business, and has been embedded in our company culture since 1919.

Home

From your home to our global home, Bona is dedicated to making our world a better place.

Bona's responsibility to the environment is embodied in everything we do. We source our own raw materials, to ensure the chemical composition of our products meets the strictest standards. The Bona System is a safe and effective way to renovate -rather than replace - materials in any building. Our innovation and R&D teams are constantly studying new ways of developing materials and products that are effective and sustainable. And Bona's facilities continue to evolve, with the goal of producing zero waste.

Health

We strive to ensure that a healthier, smarter way is always in the forefront of our minds.

Healthy people mean a healthy business. We believe that it's our responsibility to innovate better products and systems that minimise impact. In fact, we were the first in the industry to develop waterborne hardwood floor finish. From dust containment systems to intelligently sourcing our raw materials, we're constantly looking for new ways to be improve.

Humanity

We all thrive when we empower - and connect with - our global community.

As a family-owned business of over 100 years, we believe in people, first and foremost. At Bona, our commitment to humankind is more than just 'giving back'. We think of it as 'giving forward' – investing in people to live happier and healthier. From community-focused projects like renovating a community center, to global initiatives to eradicate poverty, we do our utmost to make a difference in the world.

IMPROVE YOUR INDOOR AIR QUALITY!

Did you know that indoor air can be more polluted than outdoor air? And that you spend more time indoors than outdoors. GREENGUARD Certifications serve to reduce your exposure to chemicals and improve your indoor air quality. That's why Bona's products are GREENGUARD certified. So you can feel safe and at the same time maintain your wood floors to look great for generations to come.

GREENGUARD CERTIFIED PRODUCTS

UL Environment's GREENGUARD Certification strives to help reduce chemical exposure by connecting people to healthier products they can trust. The GREENGUARD standards are among the most rigorous product emissions standards in the world, and they are based on available standards and guidelines from national and international public health agencies.

A WINNING FLOOR CLEANING COMBINATION

Our wood floor cleaning system outperformed 11 European competitors in a 2015 third-party institute testing. The test, conducted by a third-party, shows strong evidence to support that Bona's individual cleaning systems break up household dirt better than leading European competitors, and also demonstrate superior dirt removal from substrates.

All tests show that the combination of Bona Microfiber Cleaning Pad and Bona Wood Floor Cleaner is a winning combination.
