Cocoon

We are manufacturers of felt cat cave in Nepal, made of 80% of sheep wool and 20% of yak wool.

Ours products are hand made in our workshop by nepalese women to allow them to improve the life and the education of their children.

Each piece is unique and without any sewing. The colors used are naturals.

Felt is a sound and thermal insulator so the cat is like in his bubble where he can sleep quietly.

Cats love it but also their master because it's an original and design decorative object.
