

BNP PARIBAS ASSET MANAGEMENT'S 2050 CLIMATE ROADMAP

Building on 20 years of experience of sustainable investing, we embark on the next stage of our journey by making net zero emissions by 2050 the goal for our investment, stewardship and operational activities. In phases, over the coming decades, we are taking action to become the 'net zero asset manager' for a changing world, underscoring our years-long focus on sustainability.

OUR JOURNEY FROM 2000 TO 2050

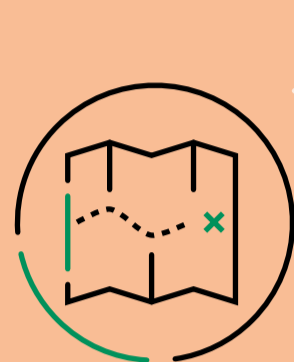

2002-2018

Founding member of PRI, Montréal Carbon Pledge, Portfolio Decarbonisation Coalition

Developed suite of climate-focused strategies including active equities, ETFs and green bonds

Report on our progress

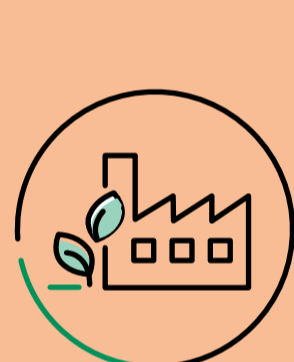

Launch net zero investment products

2025

First net zero milestone

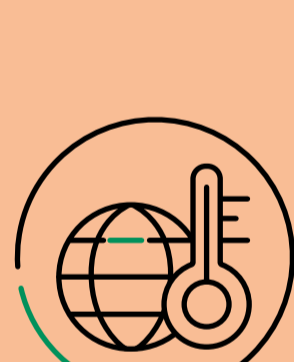

Cut carbon footprint of funds by 30% vs. 2019

2030

Intermediary net zero milestones

Cut carbon footprint of funds by 50% vs. 2019

2040

100% of corporate holdings NZ:AAA* ('Achieving', 'Aligned' or 'Aligning with Net Zero')

2050

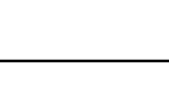

Reach net zero portfolio emissions

Contribute towards a more stable environment and economy

*To learn about the NZ:AAA framework, read our Net Zero Roadmap

The value of investments and the income they generate may go down as well as up and it is possible that investors will not recover their initial outlay.
