

MANUFACTURING

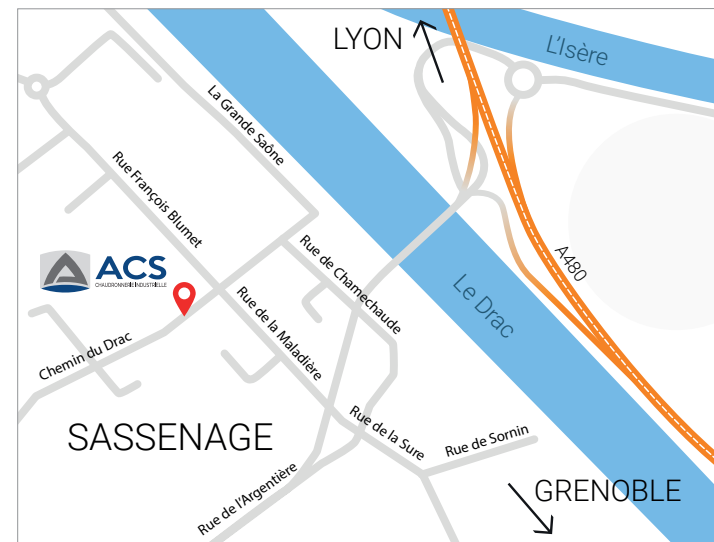

ART AND MATERIAL

ACS also puts its expertise to work for talented, world-renowned artists such as the sculptor Livio BENEDETTI. Some works requiring hundreds of hours of work, namely polishing, have been produced by the Sassenage workshops and are showcased in prestigious locations in France and abroad.

ACS

Made-to-measure quality and performance

With 50 years of experience, ACS puts its expertise, know-how and production processes to work for a demanding, constantly changing clientele. Complete mastery of sheet metal production and welding has allowed ACS to become AFAQ ISO 9001-certified for the manufacture of sheet metal products.

ACS' advantages

- ▶ A responsive, highly qualified team recognized by its key account customers
- ▶ Powerful manufacturing processes that can fulfill even the most complex specifications
- ▶ Constantly improving machinery
- ▶ Site visits and thorough monitoring of construction sites

Our key words: responsiveness and adaptability, so we can offer professionals the best possible advice and support them in carrying out their projects, in accordance with their specifications and quality and time requirements.

SERVICES

Process management and industrial maintenance...

AFAQ ISO 9001 certification offers proof of ACS' expertise and know-how. For production ranging from the basic to the highly complex, ACS has won the trust of major international groups and high-tech companies with extremely high quality standards.

YOUR TURNKEY PROJECTS

- ▶ **SHEET METAL WORKING** from plans / 2D and 3D files / existing parts
- ▶ **SHEET METAL WORKING** with steel / stainless / aluminium / CorTen...
- ▶ **PRECISION SHEET METAL WORKING**: prototypes / reduced-size models for R&D / hydraulic turbines / machine-welded assemblies / exchangers / pipes / tanks ...
- ▶ **SHEET METAL WORKING**: assorted services: welding (TIG/MAG/MIG /ELECTRODE) / surfacing ...
