Customs simplified. Trade amplified.

ALS Customs Services S.A.R.L

Your customs partner for success.

als-cs.com

Our Mission:

To be the global market leader in Customs Solutions. We want to provide customers with the most compliant and efficient service. Driven by our innovation, delivered through our passionate people.

- Founded in 1989
- Over 35 + years of experience in customs
- German focused entity to international customs group

Our Vision:

There are borders in this world. But there are no borders for your success.

To inspire companies to trade with confidence; by creating seamless borders.

Our Goals:

- Be the **No.1 Global Customs Provider**.
- Utilise our in-house customs system Mota to establish a common and IT connected International Network.
- Be recognised as a High-Quality **end-to-end solution provider** for all Customs matters.
- Ensure Risk Mitigation.

Who we are:

At ALS Customs Services, we're more than just a customs service provider; we're certified experts! Our team consists of local specialists offering international customs solutions. We take pride in our reliability and trustworthiness, making unlimited trade our strength.

Your success is our priority.

Choose ALS Customs Services for a real difference on your business.

Customs Automation with Mota:

Mota is our in-house developed system, that functions as a customs control tower, enabling the entire customs process to be digitalised from start to finish.

A new way of customs clearance:

Our Customs Control
Tower Mota ensures
automation at all levels.

How Mota operates:

1. Customer sends data to Mota.
2. Mota checks data for: Validity, Compliance, Denied Party Screening and Data Enrichment.
3. ALS customs experts check & enrich declarations before sending to local customs applications.
4. Declarations are cleared and Mota sends updates and documents back to customer.

Benefits of Mota:

- ONE** Central point of contact for customers.
- ONE** Standard operating procedure.
- ONE** interface for all countries.
- ONE** dashboard with full visibility and control.
