## General information

All our jewelry is 100% handmade. The artisanal manufacturing process (concrete cast in individual molds) means that each piece is unique, even if series can be made on the same model.

The pieces delivered may differ slightly from the photos in the catalog.

## Precautions

Contrary to popular belief, concrete is a light and relatively fragile material.

If the jewel is knocked against a hard surface, it may break or chip.

We recommend storing jewelry in an individual box or bag.

The concrete of Icy Mouse jewelry is coated with a neutral varnish to protect it from stains.
