Level up your business with
immersive family experiences

Welcome

Children need the freedom and time to play. Play is not a luxury. Play is a necessity.

Kay Redfield Jamison
Professor & Psychologist

Going out with your children is a dream at first! But after a few minutes, it can become a major crisis!

Places are not always kids friendly... So, children get bored, they cry and everyone gets upset... The result is that people stay at home, they order food and they shop on the internet.

At Kylil Kids, we believe that digital and new technologies should bring families out, instead of locking them in. We provide experiences that get kids moving, but also, experiences that are deployable, operable and generate a Return on Investment!

Antoine Nuger
Kylil Kids' CEO

Our CSR approach

Kylil Kids is firmly committed to Corporate Social Responsibility (CSR). This CSR policy is anchored at the heart of our activities, reflecting our commitment to society, the environment and ethics :

- Working with local suppliers
- Using recycled/recyclable materials for the furniture in the systems
- Limiting the use of polluting components that are difficult to recycle
- Working with a hosting company that is heavily involved in developing green energies
- Setting up a system to monitor the CO2 emissions of our transporters
- Developing a new range of low-tech products that are self-sufficient in energy
- Incentiving mobility policy for team members

NEW

Kylil Room - Immersive room

New in 2024

Offer a new, fun and attractive experience in your spaces by installing our **Kylil Room**. Generate new revenues with a paying experience that will provide many memories.

GENERATE additional revenues

Leisure & Sports

You can increase your revenues with our interactive games. Families get moving and have an unforgettable experience with our games, and that makes them want to come back.

New CSR product in 2024

Offer a new fun and educational experience with our **Kylii Power**, which will raise children's awareness of different renewable energies. This new interactive game is powered entirely by the energy generated by the children, so no electricity is required. Made from recycled materials, everything has been designed to have a real ecological impact.

DESIGN your mobility spaces

Transit aeras

Many families visit stations, airports and petrol stations. Enhance their experience by designing your area with fun and entertaining activities. Convey your CSR values by raising children's awareness of environmental issues through fun and educational experiences.

Customer testimonial

Kylil Wall - Interactive Wall

We've made the waiting areas fun (...). Children are our main concern, our aim is to take care of them, and this caring environment will enable us to do that without all the anxiety and discomfort that a hospital environment can cause.

Dr Roxane Rossignol
Head of Paediatrics - Tivoli University Hospital

Kylil Floor - Interactive Floor

Kylil Air- Augmented Reality Totem

MANAGE waiting times

Health & Associations

Set up an interactive play area to keep children and their families waiting in a pleasant atmosphere. Keep children occupied in a playful way, whether to reduce boredom or anxiety. A children's play area creates a soothing and calming atmosphere for children, their parents and other patients.
