# — *The adventures of Hanh-Thy and Philémon, his mischievous cat in Paris*

- **Hanh-Thy**

I am Hanh-Thy, I was born in Saigon, an electric city.

I find this in Paris, vibrant, cosmopolitan, creative and naturally beautiful !

I have an intense feeling of love for this city! Yes Paris, my city. Paris is amazing. Each district amazes me. Each neighborhood, each street, each corner has its own identity and state of mind.

My collection 'Les Quartiers de Paris' is a great tribute to Paris.

- **Philémon, our feline mascot**

Our offices were located at 81 rue Saint-Maur in the 11th arrondissement, where we met Philemon in 2016.

We became irremediably attached to his spellbinding eyes. He often came into our offices to say hello before returning to the rooftops of Paris. And that's when our mascot was born.

It inspired us to create our first collection: the adventures of the mischievous Philemon in the heart of an unusual Paris.
