# 

THE SERVICES PLATFORM FOR MULTILINGUAL AND INCLUSIVE PRODUCTIVITY

# What better way to tell you about Nukomr® than with customer feedback?

The user experience was great – scanning the QR core, picking a language, and the mobile interface all worked well. I swapped between Polish and English several times without issue.

NUKOMR allowed us to offer something that we've never done before – a full program in another language! – without excluding those who didn't speak that language. It was a fantastic opportunity to pilot this developing technology and create a more inclusive space.
