INOKIM

Leading micro mobility

When we first started producing and selling the Inokim Quick lightweight electric scooter, we did not imagine the huge global impact it would have. Our original concept for the last-mile solution ushered in a global trend for personal electric vehicles (PEV) as a formidable alternative means of transportation forever changing the landscape of contemporary urban commuting in cities worldwide.

Micromobility solutions are constantly developing and with rider demand becoming more diverse for specifically tailored scooter solutions.

Today's urban rider can choose their PEV based on specific preferences, balancing power, distance, portability and cost.

Inokim provides comprehensive solutions to meet our loyal customers needs and transportation requirements.

This catalogue showcases our Inokim 2023 collection.

COMPLETE SATISFACTION

- **Weight:** 26-28kg | 57-62lb
- **Speed** (electronically limited): 25 km/h | 15.5 MPH
(For other speeds info refer to table on page 18)
- **Battery:** lithium-ion, 57.6v 13Ah | 57.6V 20.8Ah (Hero/Super)
- **Motor:** 1000W gearless motor (peak 1300W)
- **Top range:** up to 60/95 km | 37/60 miles (Hero/Super)
- **Front and rear:** single sided suspension
- **Road lights:** integral front and rear lights
- **Brakes:** front drum brake | rear disc brake
- **Tires:** 10x2.5 inch pneumatic tires with option to equip 10x3 inch off-road pneumatic tires
- **Dimension (LxWxH):**
Open: 120x59x130 cm | 47x23.2x51.2in
Folded: 122x59x54cm | 48x23.2x21.3in
- **Structure material:** aluminum 6061 T6
- **Max load:** 120 kg | 265 lb
- **LCD** with functions and illumination
- **Colors:** Orange, Mint green, Blue sky

NEW FEATURES & COLORS

New lock

New rubber deck carpet

New product logo and slogan

“It's a life changer”

David Rayner | Pilot & Personal trainer

- Award winning design
- Extreme power and range
- Dual suspension + adapter patent: OSAP
- Both for urban and off road treks
- Front drum & rear disc brakes-
- Smooth and silent ride
- Foldable
- Pneumatic tires

EXTREME EXPERIENCE

- **Weight:** 33,5 kg | 73 lb
- **Speed** (electronically limited): 25 km/h | 15.5 MPH
(For other speeds info refer to table on page 18)
- **Battery:** lithium-ion, 57.6V 25.6Ah
- **Motor:** Two 1000W gearless motors (peak 1300W)
- **Charge time:** 13,5 hours for full charge
- **Top range:** up to 110 km 68 miles
- **Front and rear** single sided suspension
- **Road lights:** Integral front and rear lights
- **Brakes:** front and rear hydraulic disc brakes
- **Tires:** 10x2.5 inch pneumatic tires with option to equip 10x3 inch off-road pneumatic tires
- **Dimensions (LxWxH):**
Open: 120x59x130 cm 47x23.2x51.2in
Folded: 122x59x54 cm 48x23.2x21.3 in
- **Structure material:** aluminum 6061 T6
- **Max load:** 120 kg | 265 lb
- **LCD** with functions and illumination
- **Colors:** Orange, Mint green, Blue sky

2019: OZOa won Good Design Award

2020: OZOa won A' Design Award

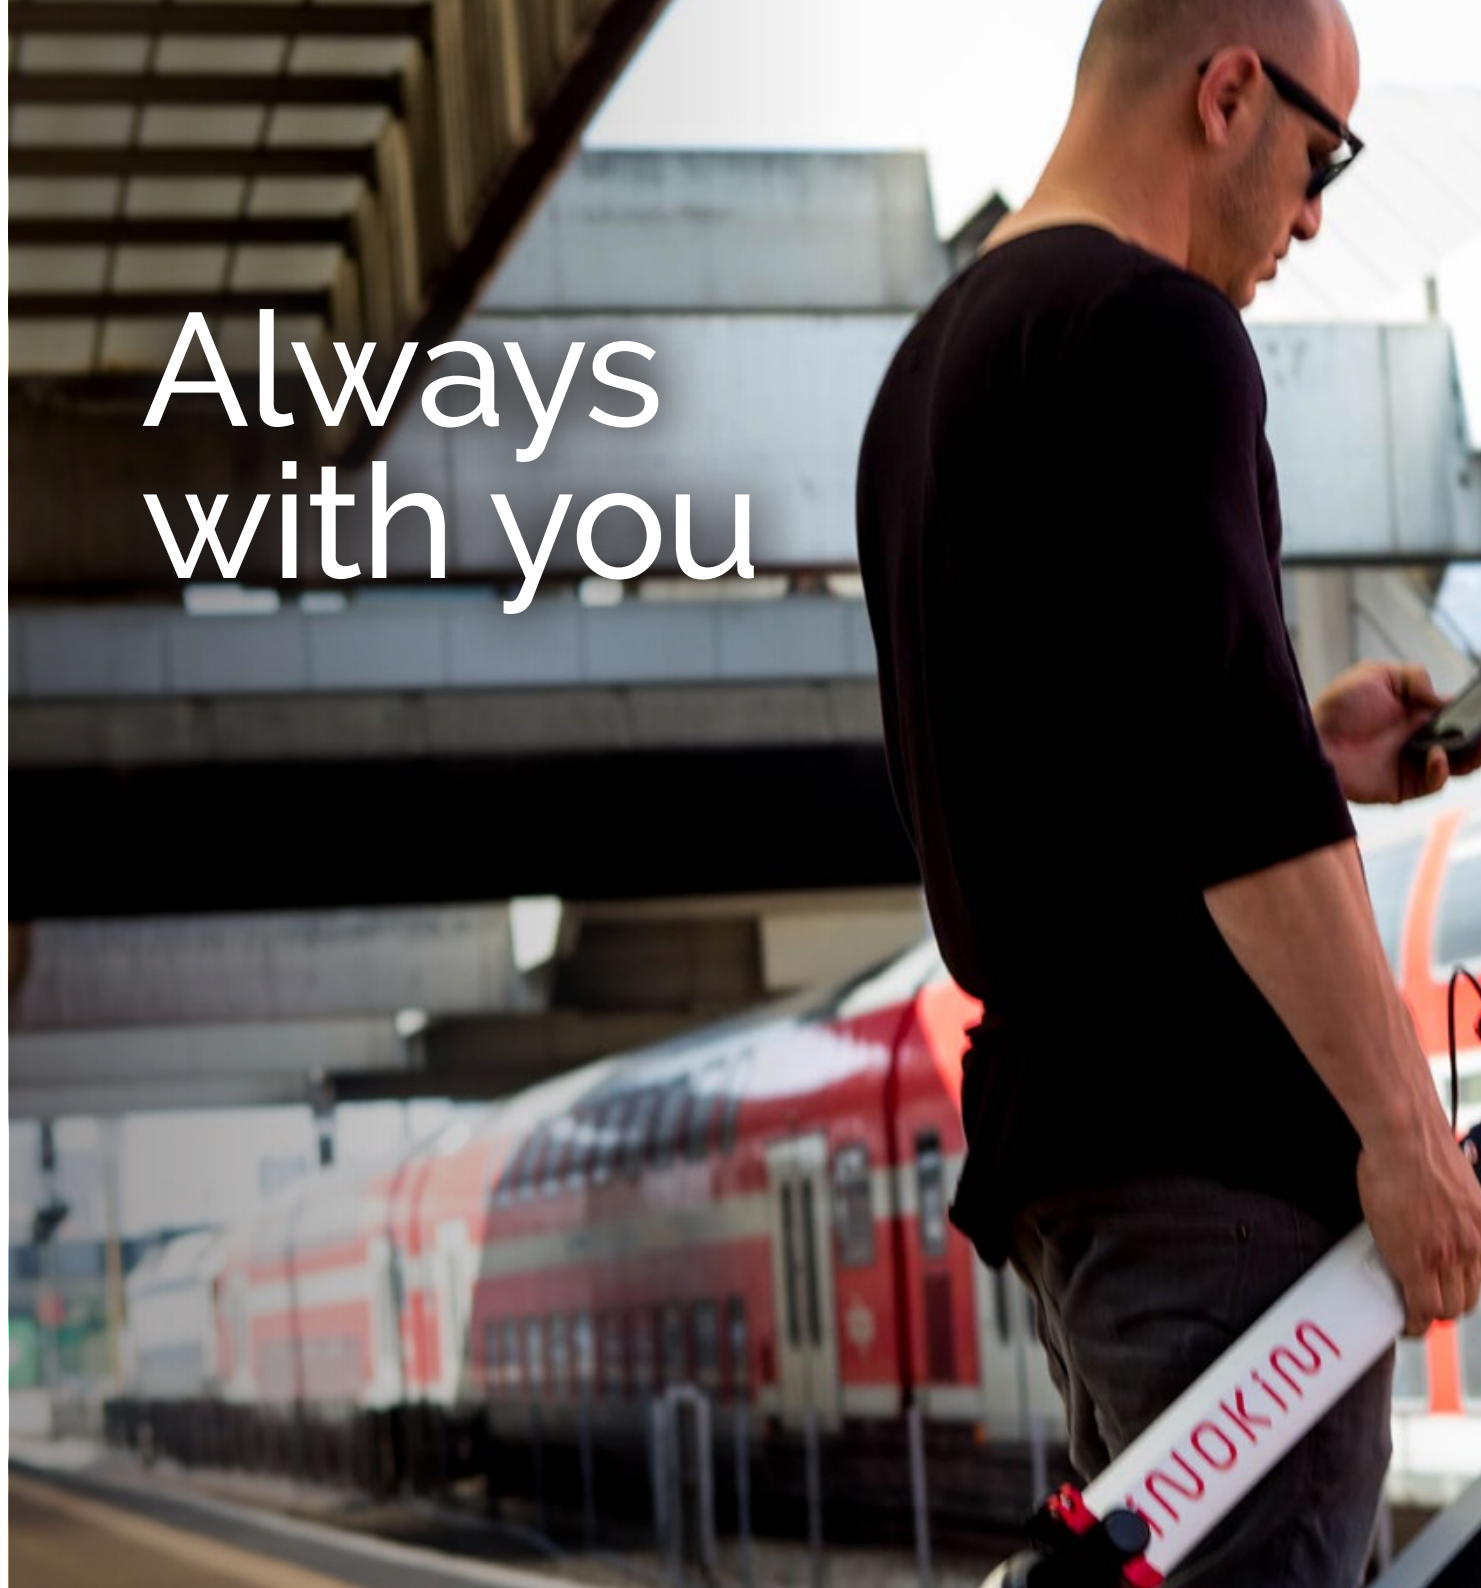

CERTIFICATES

Our scooters comply with FCC and CE directives of U.S. and the European Community (EC) respectively. Scooters are periodically tested for RoHS compliance requirements.

Always with you

A word from the designer:

Inokim started as a garage project in 2009 (called MYWAY) where we set about finding solutions to the commuting challenges faced by modern urban commuters. Our goal was to design a light PEV requiring minimal time and effort, while reducing the carbon footprint of car-use.

In 2013, the Inokim (innovation of last kilometer) company was formed to mass produce our electric scooter in a state-of-the-art production facility. Tens of thousands of units later, and the interest in Inokim's complete range of e-scooters has consistently gone up, gaining new fans around the globe.

Accompanying this growth has been a parallel growth in the e-scooter marketplace, which has challenged us to continue and improve our products rapidly.

This is why we spend 100% of company profits on R&D.

Inokim is a company that has a wide variety of award-winning products, models and colors of light electric scooters and accessories.

Ride carefully, always wear a helmet and most importantly, enjoy yourself!

Nimrod Riccardo Sapir

Chief Designer, Inokim
