

Bioindustry Park Silvano Fumero

Benefit Company

Since 1998 to foster the results of research in the field of Life
Sciences and human health

Who we are

The place where research and entrepreneurship meet for the benefit of human health

The science & technology park represents for enterprises the ideal context to **make innovation**, supported by a network of **institutions, universities and investors**.

Our Mission

To develop an environment in which knowledge becomes progress.

We transform the results of research in the field of health into technological innovations that promote the set-up, growth and development of innovative and competitive global enterprises.

The community

Bioindustry Park is an outstanding example of **public-private cooperation** that combines industrial capacity and general interest.
