

E LOG'IN 4 THIONVILLE

Trimodal logistics and industrial platform

200 ha available

- direct access to the north-south (A31) and east-west (A4) motorways,
- in a trans-frontier environment, at the epicentre of a market of 100 million consumers within a radius of 400 km.

The port's geographical and logistical assets

- Connection to the international rail network
- At the crossroads between two European rail freight corridors
 - Amsterdam – Marseilles – Spain / Italy
 - Le Havre – Paris – Strasbourg – Germany / Switzerland
- Nearby access (3 to 5 km) to the A30 and A31 motorways places all of Europe within the reach of E-LOG'IN 4
- Zone situated upstream of Thionville on the left bank of the canalised Moselle, offering a draught of 3m and a clearance height of 6.10m (under the Thionville railway bridge) guaranteed 300 days a year.
- Two railway tracks beside all the quays
- With 2 km of quays alongside the European high-capacity canalised Moselle, putting Thionville 2/3 days' navigation away from the major North Sea ports (Rotterdam, Antwerp, Zeebrugge,...)
- 30 km from the 5th largest European freight airport
- Thionville High-Speed Railway station located 2 hours away from Frankfurt and Roissy airports and 30 minutes from Luxembourg Airport with daily services to all the European capitals and industrial cities

A TRIMODAL PLATFORM in optimum surroundings

High-performance facilities:

- Container platform on the riverside quay, with two quayside railway tracks
- Connection to the international rail network
- Recently fully-renovated river port
- Large land reserve
